Filter Leader

Zhejiang MOCAR Filtration Technology Co.,Ltd

Zhejiang Mocar Filtration Technology Co., Ltd. was established in 2011 and currently has two major production bases in Wenzhou and Lishui, Zhejiang, with an area of over 10,000 square meters. Mocar is a modern enterprise specializing in the research, production, and sales of a full range of filters, including oil filter, fuel filter, and filter housing. Our main products cover a wide range of applications, including small and medium-sized fuel vehicles, heavy duty trucks, water transport equipment, engineering machinery, agricultural machinery, diesel generator sets, air compressors, etc., with a total of more than 3,000 models.

After more than ten years of development, Mocar adheres to the corporate mission of "providing high-value, full-range filters products," and has established a standardized quality control system. We have introduced advanced automated production equipment from both domestic and foreign countries to provide customers with the most comprehensive and cost-effective line of high-quality filter products. Mocar insists on opening up and reaching out to the world, and our products are sold to dozens of countries and regions, including the United States, Russia, Italy, Brazil, Turkey, Dubai, Malaysia, Thailand, and Taiwan etc.
