Always I tell my clients the key word to Medivh is “Quality”.Only we make all the major parts step by step in our own plants and workshops that we can control the quality.Our ability below,

- A stamping plant include welding**
- An Aluminum forging plant**
- CNC and NC machining lines.(For ball joint,housing and bare forging control arm)**
- Vulcanization workshop.**
- Wire-electrode cutting line(For tooling development)**
- Lab for testing**

Tech Standard

1.Steel Stamping

Material:SPHC,SAPH400,SAPH440.

2.Steel Forging Material:45# steel

3.Aluminum Forging Material:6082Al T6

4.Rotation Torque Of ball joint:3–7Nm

5.Bushing Material: Natural rubber

6.Bott Material:CR

7.Grade of hardware:10.9 lv.
