制动系统冗余方案设计 Redundant brake system

Updated 2022/06/21

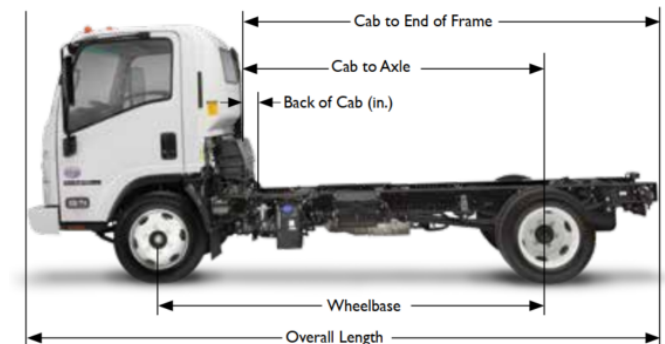

Brake fluid circuit for JiYu's Redundant-Brake-System

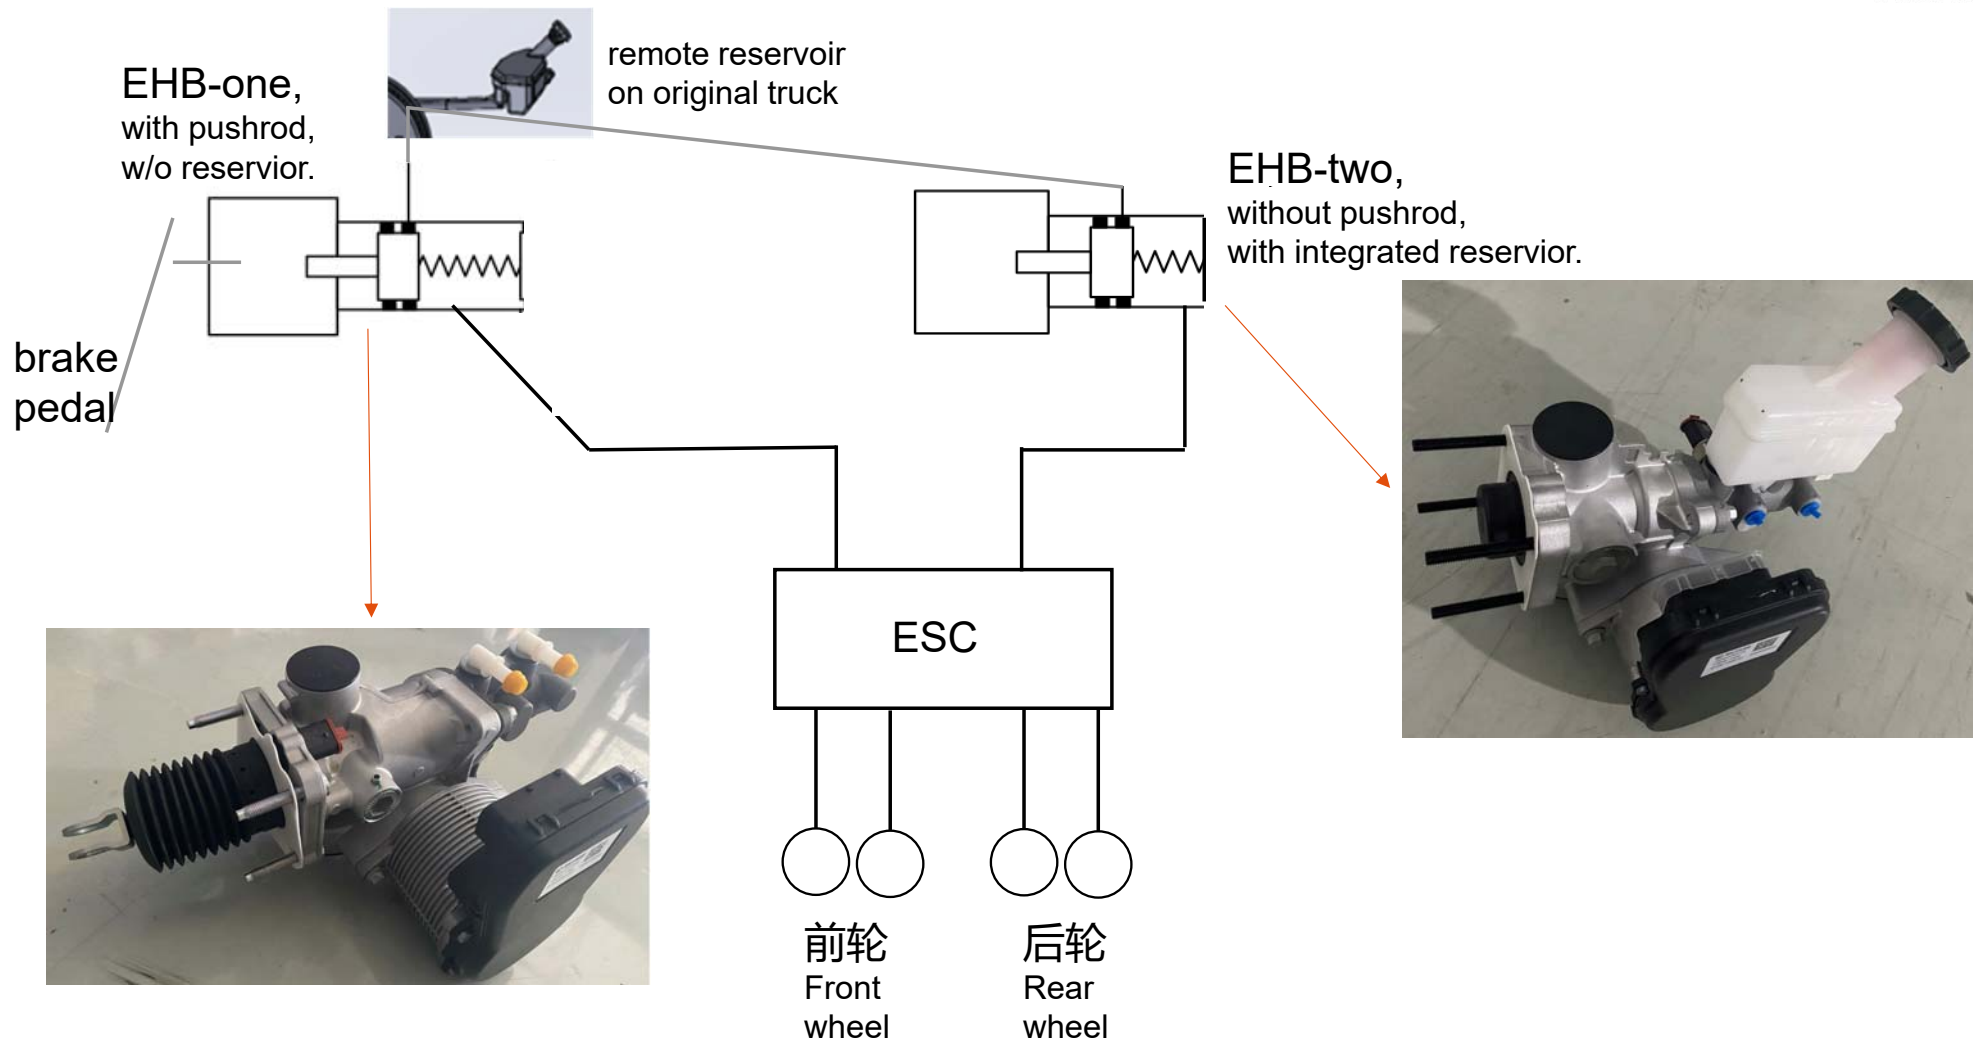

Note:
EHB-two should be positioned to secure its reservoir fluid surface (min/max marking) horizontally.

The original brake vacuum booster to be replaced by EHB-one.

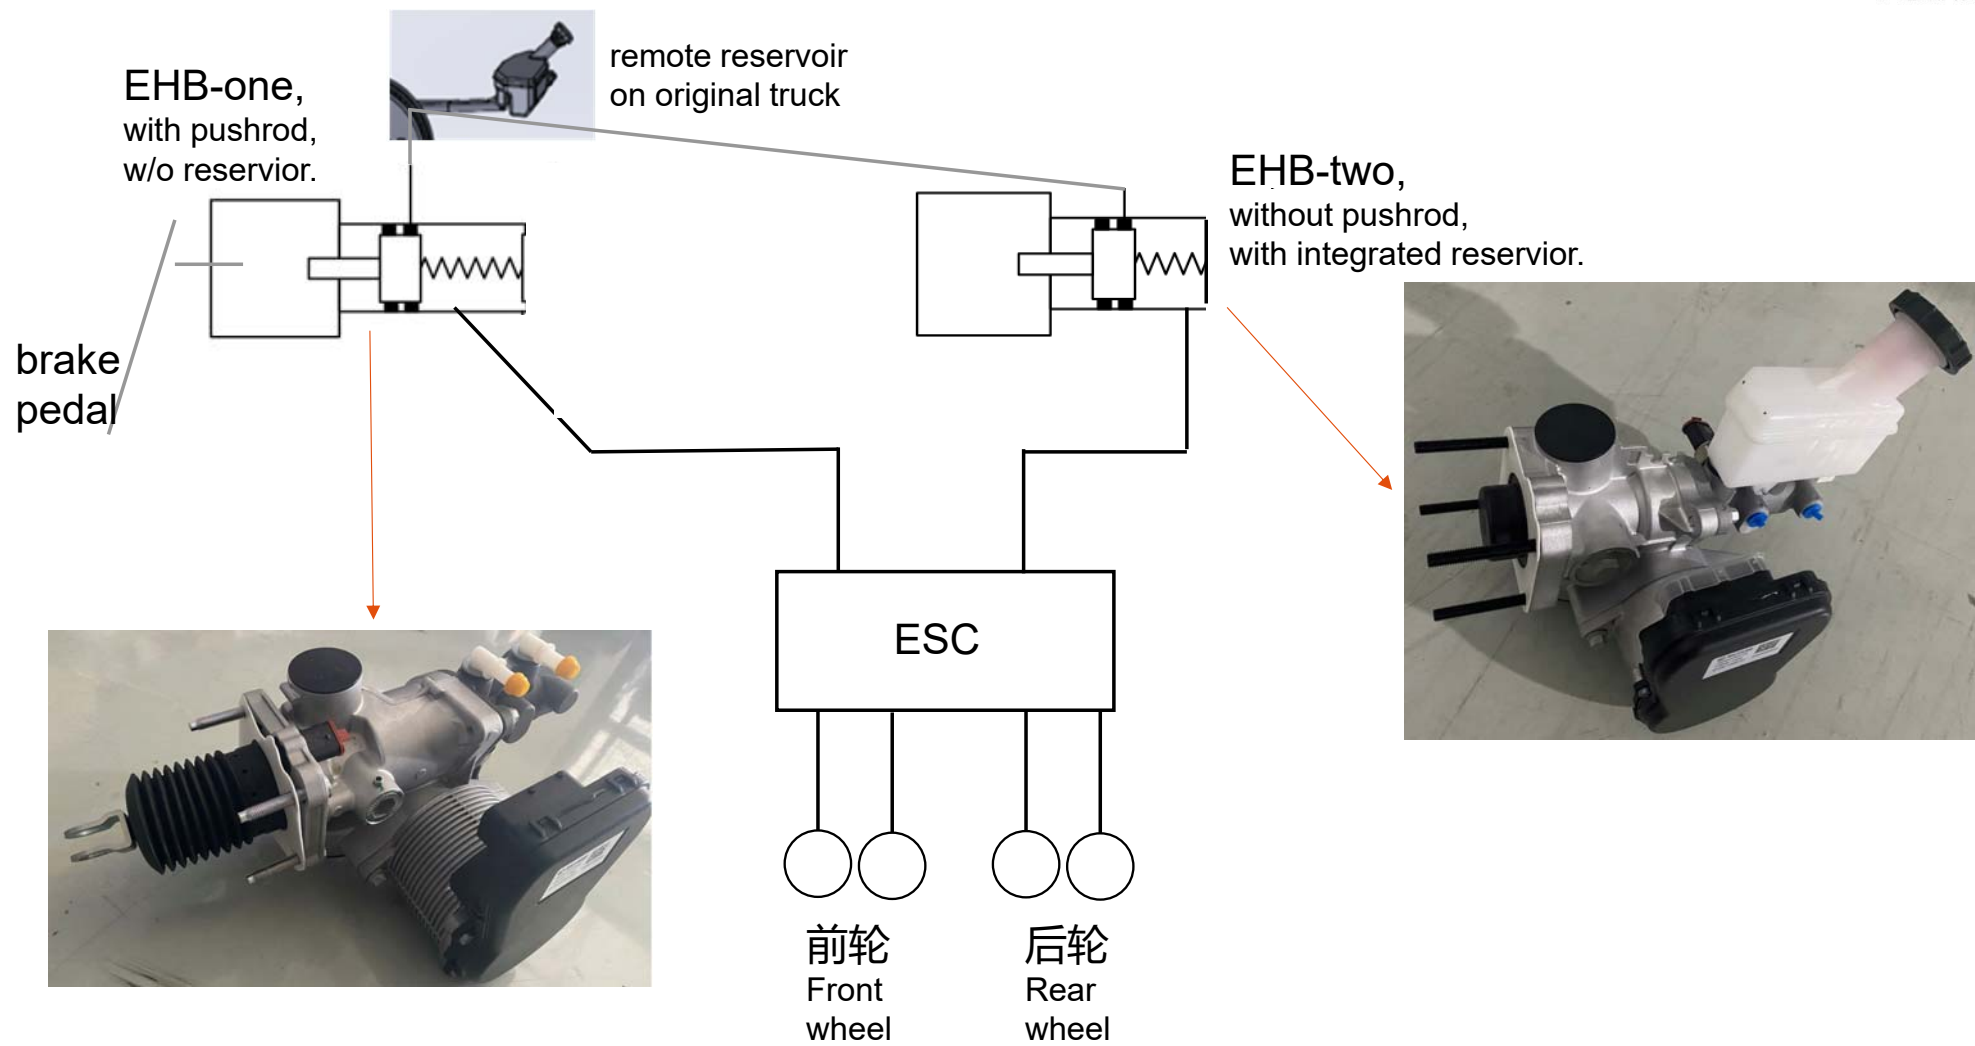

The original brake fluid reservoir to be kept for EHB-one.

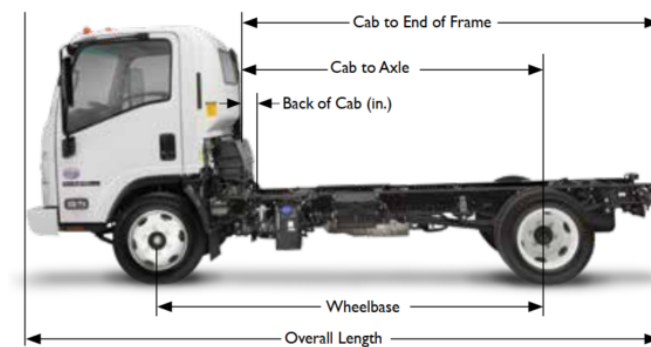

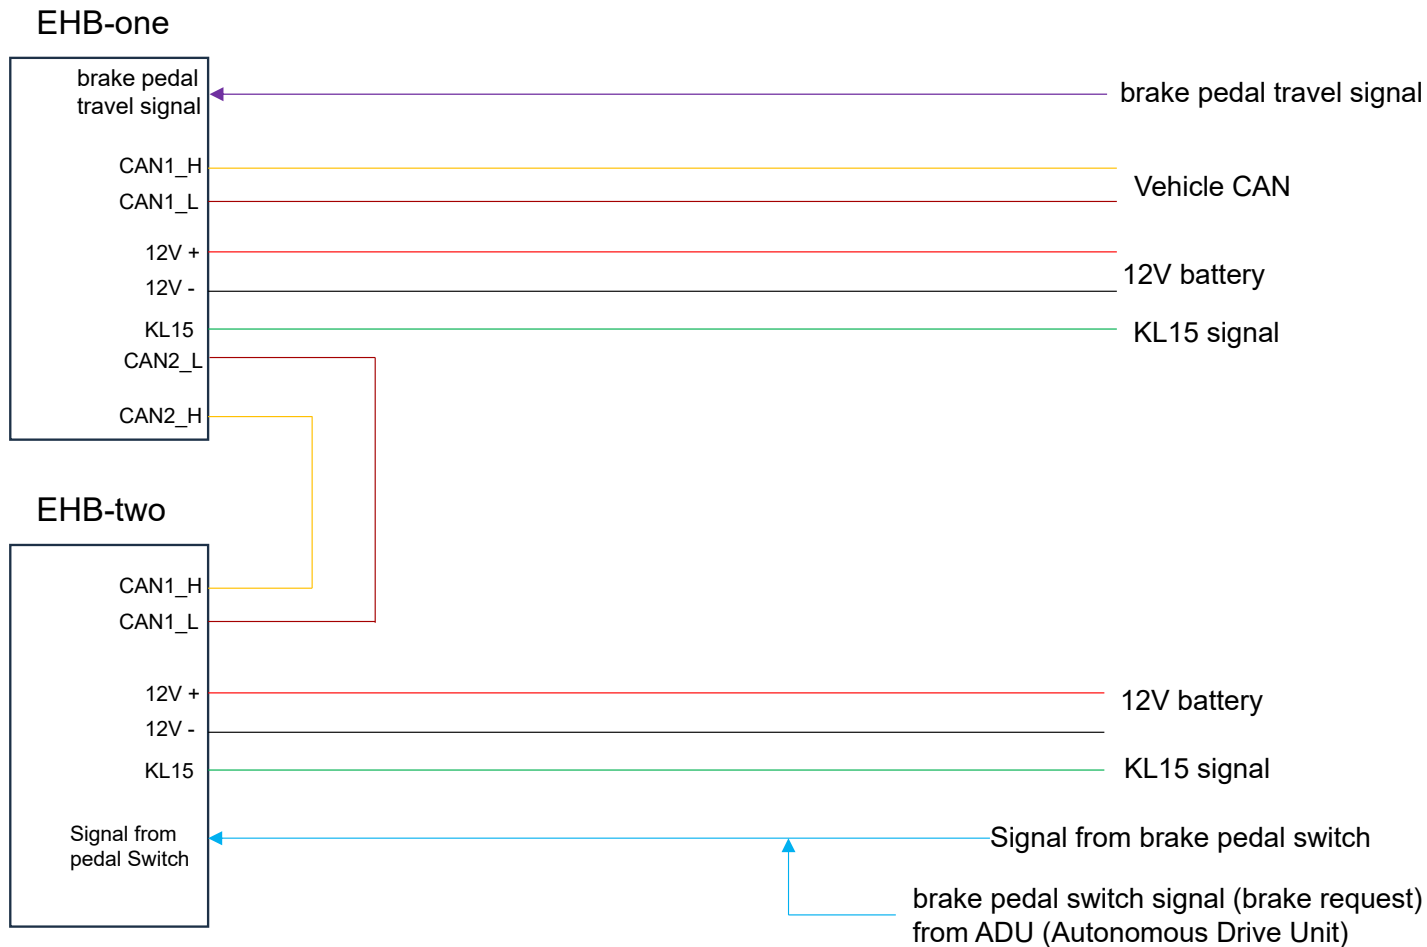

Brake fluid Circuit for JiYu's Redundant-Brake-System, with parts pictures.
