ABOUT US

AMP is India's leading supplier of **Antivibration Rubber-to Metal Bonded** components for the automotive industry. Our components are used across the globe on all platforms including **Passenger Cars, Trucks, Trailers & Off-Highway vehicles**. With more than 700+ professionals employed at 3 State-of-the-Art manufacturing facilities, AMP exceeds the expectations of its customers.

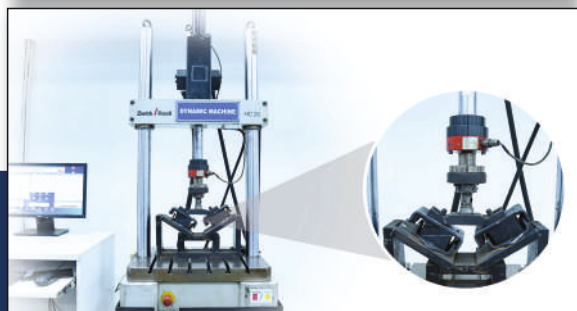

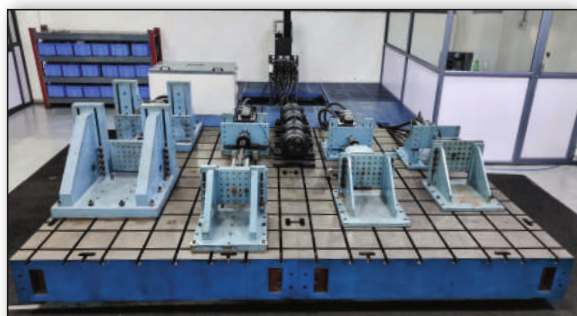

MANUFACTURING

AMP operates as one of the few composite units in the world where, all activities starting from tool making to rubber mixing, metal pressing, molding, to final assembly are conducted in one facility.

R&D CENTRE

Being a technology based company, we specialize in the development and manufacture of performance formulated products for controlling **vibrations, shocks & noise**

Focusing all R&D activities towards one common AIM
ENHANCED CUSTOMER SATISFACTION
