PRODUCT LINES *SUMMARY*

WE BRING YOUR BUSINESS *INTO THE FUTURE.*

Autel is one of the world's leading manufacturers and suppliers of professional diagnostic tools, equipment and accessories in the automotive aftermarket.

Since its founding in 2004, Autel has been committed to creating the maximum long-term value for customers all around the world by providing quality products that are easy to use, innovative and technologically advanced.

All multi-brand diagnostic tools are designed and developed by qualified engineers in the US who, in coordination with the Headquarters, issue directives and guidelines to subsequently create the products.

The manufacturing is performed in China as it is currently the global leader in the production of software, tablets and mobile phones. To ensure quality for its customers, Autel strives to understand the needs of end users and reflects those needs into superior quality products by optimizing research, development and manufacturing capabilities. All products are manufactured to meet the most stringent international quality and environmental standards, including FCC, CE and RoHS.

To achieve this goal, in an ever-flexible and expanding market, Autel invests over 20% of its annual turnover in the research and development of new products and technologies.

LINE
MAXI**SYS**

PROFESSIONAL ADVANCED DIAGNOSTICS

ADVANCED DIAGNOSTICS & SYSTEM INFORMATION

ALL FUNCTIONS IN ONE TOOL

The MaxiSys line is AUTEL's most technological advanced line of diagnostic tools, which allows for safe and reliable coding.

MaxiSys tools are capable of ECU-level procedures, OE-level functions, integrated TPMS service and enhanced wireless Bluethoot connectivity to facilitate movement around the vehicle during the diagnosis.

The MaxiSys line includes advanced dual band Wi-Fi (2.4 GHz and 5 GHz) twice as fast as previous generation diagnostic systems.

The vehicle communication interface (VCI) connects to the tablet via the Bluethooth Class 1 Long Range system.

Once the wireless VCI is connected to the car, the technician is the connection with the vehicle. Moreover, its wireless connectivity allows for updates to the latest software versions with better vehicle and feature coverage.

All this allows the technician to provide a complete service to his customers, in full autonomy. completely free to move around the workshop while maintaining

MAXISYS ULTRA EV

The MaxiSys Ultra EV is a new generation of advanced diagnostics for electric, hybrid, gas, and diesel vehicles.

The Ultra EV provides a comprehensive analysis of electric and hybrid vehicles with expanded topology mapping and battery pack analysis that can be performed via OBD or directly with included specialty cables and jumpers.

The Ultra EV screen displays detailed graphics and in-depth connection guidance to provide safe and secure testing. The 12.7-inch Ultra EV touchscreen tablet comes equipped with the MaxiFlash VCMI (5-in-1) measurement device, Bluetooth-enabled vehicle communication interface and J2534 pass-thru programming device, and a dedicated EVDiag box.

INCLUDES:

- 12 month Updates
- 24 months Warranty

FEATURES:

- Covers all fuctions of MaxiSYS Ultra
- In-depth battery pack diagnostics
- Analysis of EV high-voltage system
- SOH Assesment
- High-voltage componenet test

MAXI*SYS* *EV UPGRADE KIT*

EVDiag Box & Adapters for Battery Pack Diagnostics

The EV Diagnostics Upgrade Kit includes EVDiag Box and adapters for specific electric vehicles to perform battery pack analysis.

The EVDiag Box is compatible with the MaxiSys Ultra, MaxiSys Ultra ADAS, MaxiSys MS919, and MaxiSys MS909 tablets. EVDiag Box connects to MaxiFlash VCI or VCMI.

- Includes EVDiag Box, Adapters for BMW, Tesla, VW and Breakout Leads
- Includes Carrying Case
- Compatible with Ultra series products to perform Battery Pack diagnostics
- State of Charge and State of Health analysis for true battery condition

INCLUDES:
- 24 months Warranty

MAXISYS ULTRA

The MaxiSys Ultra is Autel's most ambitious diagnostics tablet designed to maximize technician intelligence. It features a 12.7-inch touchscreen tablet with Android 10.0 OS powered by an Octa-core processor (2.3GHz Quad + 1.7GHz Quad), substantial 256GB built-in memory, all powering the new split-screen multi-application navigation to provide diagnostic guidance and test components to confirm repairs.

Combined with the dynamic topology module mapping, enhanced AutoSCAN features, the Ultra offers the technicians advanced diagnostics. The new MaxiFlash VCMI functions as a 4-channel oscilloscope, waveform generator, multimeter, and CAN BUS tester. The convenient docking station featured ensures you always have the power to scan.

INCLUDES:
- 12 month Updates
- 24 months Warranty

FEATURES:
- Coverage for more than 80 makes
- Advanced ECU coding and programming
- Automatic updates
- Topology Module Mapping
- VCMI with oscilloscope function

LINE MAXIIM

KEY PROGRAMMING

KEY PROGRAMMING

KEY CODING AND PROGRAMMING

The new tools of the MaxiIM line are designed to integrate advanced diagnostics, key programming and advanced maintenance services in one tool.

Thanks to their different key learning modes it is possible to choose the fastest method for every need: **Smart mode, easier and more intuitive** for quick programming and **Expert mode for advanced key learning.**

MaxiIM line tools are OE-level diagnostic tools and can perform IMMO functions for most European, Asian and American vehicles.

Thanks to the **XP400PRO programmer and the MaxiFlash**, it is possible to carry out key programming at a professional level.

MaxiIM line is based on the diagnostic system of the MaxiSys line and uses the Android **Android™ 10.0 & 11.0** OS with 64 or 128 GB internal memory, as well as a 7 or 10.1 inch LCD touchscreen.

An important feature of this line is the enhanced lithium battery which extends its autonomy compared to other diagnostic tools.

MAXI**IM** *IM508S*

MaxiIM IM508s is a fast, easy-to-use, and ultraportable immobilizer and key programming device. The Android-based touchscreen tablet features powerful quad-core processor, intuitive design and straight-forward interface. Equipped with XP200 key programmer, IM508s is capable of providing extraordinary service functions for the immobilizer system.

Together with the ability to quickly diagnose all modules of the majority of brands and models on the market, IM508s provides you with superior special functions.

XP200 included.

INCLUDES:
- 12 month Updates
- 24 months Warranty

FEATURES:
- Key programming
- Wi-Fi connectivity
- Online update

CABLE CASE INCLUDED WITH
MAXI*IM IM508s*

CABLE CASE INCLUDED

WITH THE TOOL

INCLUDED IN THE CASE

- Main Unit
- XP200 Programmer
- Mini USB Cable
- Power Adapter
- AAC001
- APB001 (EEPROM Adapter)
- APB002 (68HC908 Adapter)
- APA001 (EEPROM Socket)
- APA001 (EEPROM Clamp Integrated MC9S12 Cable)
- KIA-10 Adapter
- KIA-20 Adapter
- Honda-3 Adapter
- Mazda-17 Adapter
- Quick Reference Guide
- Packing List
- Soft Cloth
- Carrying Case (504x360x133mm)

CABLE CASE INCLUDED WITH
MAXI*IM IM608 PRO II*

INCLUDED IN THE CASE

- MaxiFlash JVCI+
- XP400 PRO
- Main Cable v.2.0
- USB 2.0 Cable v2
- Mini USB Cable
- AC/DC Adapter (12V)
- Spare Fuse (6x30mm
- Auxiliary Power Outlet Adapter
- AAC001
- USB to Ethernet Adapter
- APC101 (USB Cable)
- APB104 (MCU_FQFP64)
- APB105 (MCU_FQFP80)
- APB106 (MCU_FQFP112)
- APB107 (MCU_FQFP144)
- APB108 (MCU_FQFP176)
- APB129 (EEPROM Adapter)
- APB125 (Mercedes Infrared Collector)
- APA002 (EEPROM Socket)

- APA101 (Signal Cable)
- APA103 (EEPROM Clamp)
- APA107 (ECU Cable)
- APA108 (MCU Cable)
- APA109 (MC9S12 Cable)
- Connect Cable
- Quick Reference Guide
- Packing List
- Carrying Case (634x170x404 mm)

ADAS
CALIBRATION

ADVANCED CALIBRATION AND DIAGNOSTICS

A SIMPLE SOLUTION FOR ADAS CALIBRATION

The evolution of the automotive market and related technology lead to an increase in driver assistance systems (ADAS) that are increasingly and precise, which support the driver in certain circumstances by increasing driving safety.

However, when an intervention on the ADAS systems of a vehicle is required, **it is fundamental to have an adequate tool for performing the correct repair** and therefore to maintain the functionality of the systems.
AUTEL has developed the MaxiSys ADAS line capable of supporting the calibration of these systems.
The MaxiSys ADAS line consists of two fundamental parts: the software and the frame.

The MaxiSys ADAS Software, which can be installed on any tool of the MaxiSys

line (except MaxiSys906 and MaxiSys CV), is a step-by-step guided procedure the calibration process (from the positioning of the wheel clamp, to the analysis of the calibration) and allows you to complete the most accurate calibration procedures on every brand without the help of the vehicle user manual. The **MaxiSys ADAS package covers a wide range of vehicles** and systems and includes: main panel, wheel clamps and centering laser.

The patterns are divided according to the vehicle brand and the type of calibration, to satisfy the wider needs of the car repairer.

MAXI**SYS** *ADAS IA900WA*

Technological innovation is constantly evolving and our experts are becoming more and more skilled: from control units to tires, they are ready to solve any problem. That's why Autel developed a wheel alignment and ADAS calibration system able to perform these two similar and closely related functions, saving time and simplifying the procedure.

The IA900WA can perform wheel alignment and comprehensive ADAS calibration on all vehicles. Live data make wheel alignment simple and effective: using the values on the tablet it is possible to manually adjust the frame.

The ADAS software also allows easy and precise calibration through guided step-by-step instructions.

INCLUDES:
· 24 months Warranty

FEATURES:
· Precise calibrations
· Manual and automatic measuring
· Adjustable panels
· ADAS All Systems Diagnostics

MAXI**SYS** ADAS IA600 LASER

The IA600 is the ultimate portable Laser ADAS calibration tool. It is specifically designed to provide accurate calibration placement for Advanced Driver Assistance Systems (ADAS). With its step-by-step graphic instructions, the IA600 makes the calibration process straightforward and easy to follow. By aligning with the vehicle's thrust line, the tool ensures optimal calibration accuracy, even for complex ADAS systems. Additionally, the IA600 boasts a modular frame design, making it incredibly easy to move and transport. The IA600 is compatible with the MaxiSYS ADAS tablet when upgraded with ADAS software (purchased separately).

INCLUDES:
· 24 months Warranty

FEATURES:
· Precise calibrations
· Adjustable panels
· ADAS All Systems Diagnostics

WARNING:
The BASIC KIT and FULL KIT packages **do not include the diagnostic tool.** To use the MaxiSys IA600 systems it is necessary to have a diagnostic tool from the MaxiSys line.

WARNING:
All the components of the list **cannot be sold** individually. The BASIC KIT and FULL KIT packages do not include the diagnostic tool. To use the MaxiSys IA600 systems it is necessary to have a diagnostic tool from the MaxiSys line.

MAXISYS ADAS IA600 CAMERA

The IA600 is the ultimate portable 3D camera ADAS calibration tool. It is specifically designed to provide accurate calibration placement for Advanced Driver Assistance Systems (ADAS) within just 1 minute. With its step-by-step graphic instructions, the IA600 makes the calibration process straightforward and easy to follow. By aligning with the vehicle's thrust line, the tool ensures optimal calibration accuracy, even for complex ADAS systems. Additionally, the IA600 boasts a modular frame design, making it incredibly easy to move and transport.The IA600 is compatible with the MaxiSYSADAS tablet when upgraded with ADAS software (purchased separately).

INCLUDES:
- 24 months Warranty

FEATURES:
- Precise calibrations
- Manual and automatic measuring
- Adjustable panels
- ADAS All Systems Diagnostics

WARNING:
The BASIC KIT and FULL KIT packages **do not include the diagnostic tool.** To use the MaxiSys IA600 systems it is necessary to have a diagnostic tool from the MaxiSys line.

MAXI**TPMS**

TYRE PRESSURE MONITORING SYSTEM FUNCTION

ADVANCED DIAGNOSTICS & SYSTEM INFORMATION

TPMS SERVICE AND FUNCTIONS:
THE SMART SOLUTION

The MaxiTPMS line has been elaborately designed by AUTEL to offer high performance and intuitive technology, reprogramming capabilities and diagnostic functions.

The devices combined with the exclusive AUTEL universal MX-Sensor, guarantee coverage of up to 99% on European, Asian and American vehicles. MaxiTPMS tools represent the best solution for technicians working in the tire industry, offering a complete maintenance service and dedicated technical assistance.
Thanks to the continuous updates by AUTEL, the tool will support all vehicles and the latest models.

Expanding the horizon of the TPMS line, AUTEL introduces two new additions: the ITS600 and the TS900:

The ITS600 offers unparalleled functionality in a compact package. Equipped with advanced features such as OBDII diagnostics and tire service, this versatile tool

is a game-changer for technicians seeking uncompromising performance. With its ergonomic design and intuitive interface, the ITS600 streamlines maintenance operations, ensuring maximum productivity with every use.

Meanwhile, the TS900 combines state-of-the-art technology with unmatched versatility. With a sleek design, the TS900 redefines TPMS service standards, offering high levels of accuracy and efficiency. From comprehensive diagnostic capabilities to seamless sensor programming, the TS900 sets a new benchmark for excellence in the automotive industry.
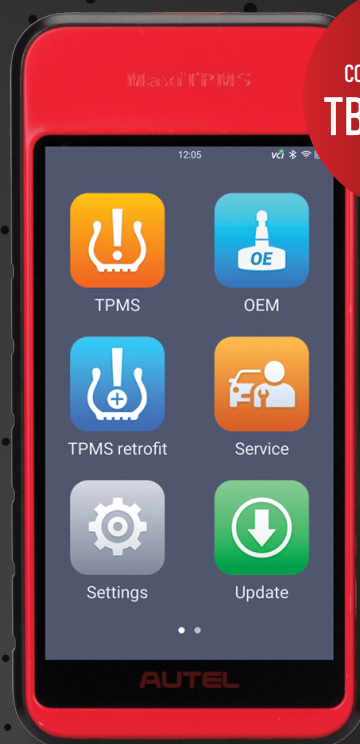

**COMPATIBLE WITH
TBE200 EU**

MAXITPMS ITS600

The MaxiTPMS ITS600 is the innovative tablet that offers a complete solution for tire maintenance, integrates all TPMS functions and supports diagnosis and maintenance functions.

The ITS600 with simplified graphics, allows you to select the vehicle more quickly through automatic VIN detection, supports four programming modes of TPMS sensors (only MX-Sensor), integrates relearn functions of new sensors via OBD and has relearn guides for vehicles that need of "manual relearning" and "automatic relearning".

The ITS600 can read and relearn all sensors, copy and create Autel sensors (compatible with 99% of OE sensors) and perform diagnostics of the TPMS system. Thanks to the Wi-Fi network connection, it is possible to send reports via email and update the tool. The ITS600 may reprogram single and double frequency radio sensors (MXSensors) and BLE Sensors (Bluetooth).

INCLUDES:
·   24 months Warranty
·   Free Lifetime Software Updates (TPMS)

FEATURES:
·   All ECU diagnostics (only on ITS600PRO)
·   Oil light reset
·   Battery reset
·   Electric parking brake inducted release
·   Steering wheel angle reset
·   Brake bleed, forced regeneration and suspension adaptation

MAXI**TPMS** *TS900*

The MaxiTPMS TS900 is an 8-inch, three-in-one, TPMS, diagnostics, Service, wireless touchscreen tablet. The TS900 can activate, read and relearn all known TPMS sensors, including Tesla OE sensors, and program the Autel 1-Sensor to replace 99 percent of the TPMS sensors on the road today.

The TS900 is also compatible with the Autel BLE Sensor, preprogrammed for Tesla vehicles. The TS900 offers both basic all-systems diagnostics, such as the ability to read and clear codes and view Freeze Frame and Live Data, and advanced features, such as Active Tests and Special Functions. The TS900 can generate, print, and share Pre- and Post-Scans.

The Android 11-based tablet features an extensive Service Menu providing direct access to more than 40 service functions, including Oil and Service Lights reset, Electronic Parking Brake reset, Brake Bleed, Air Bag reset, and Occupancy Seat calibration. The TS900 offers an advanced processor, 4GB operating memory, and 64 GB storage memory.

INCLUDES:
- 24 months Warranty

FEATURES:
- Advanced all-systems diagnostics
- Reads and clears codes and view Freeze Frame and Live Data
- Advanced features: Active Tests & Special Functions

MX-SENSOR 433 MHz

The programmable universal sensors are intelligent and efficient, created specifically to replace the original sensors to guarantee the same performance both in terms of design, duration and functionality.
MX-Sensor guarantees coverage up to 99% for European, Asian and American vehicles.

Sensors availble with: ALUMINIUM and RUBBER STEMS

MX-Sensor is available in CLAMP-IN or SNAP-IN version.

INCLUDES:
- 24 months Warranty

FEATURES:
- Covering European, Asian and American vehicles
- 433 MHz frequency
- Rubber or metal stem
- Clamp-in or Snap-in
- Reprogrammable

MAXI*TPMS* TBE200 EU

The MaxiTPMS TBE200 EU is a laser-enabled tester equipped with a 1.65" AMOLED super retina touchscreen, that displays measurement data curves in real time. The TBE200EU is a tire tread depth examiner that provides uneven wear analysis and detailed replacement & maintenance suggestions for quick tire service.

The TBE200 EU dual cameras enable users to document tire wear and damage and scan the tire identification number.
Use the tool with ITS600 to view and print detailed TPMS reports, the TBE200EU can also generate a report by itself.

INCLUDES:
- 24 months Warranty
- Lifetime Free Software update

FEATURES:
- Real-time measurement data on touchscreen
- Measurement data curve display
- Uneven wear analysis
- DOT Scan and tire expiration notice.

MULTIFUNCTION TOOL FOR AN
EFFICIENT SERVICE

The multifunction tools section is dedicated to accessory devices that support diagnostic tools and make their use faster and more effective.
The MaxiDiag, MaxiCheck, MaxiVideo, Autolink and PowerScan lines are part of the multifunction tools.

Thanks to their ultra-portability, the tools of the MaxiCheck line are the ideal companions for every technician. In addition to quickly reading and clearing OEM codes for all modules available on most brands and models, they include powerful special functions such as Oil Reset, EPB, SAS, BMS and DPF.

The new tools of the MaxiDiag line, not only include the Oil Reset, EPB, SAS, BMS and DPF functions, but also can access the Engine, Transmission, ABS and Airbag systems. The tools of the MaxiDiag line provide technicians with the most advanced functions and features to solve any problem both on the four basic systems and on all the systems of most vehicles.
The Autolink tools are powerful scanners, the ultimate in performance and affordability, allowing users to do their jobs faster.

MAXI**CHECK** MX 900

TheMaxiCheck MX900 is an all-system diagnostics tablet, compatible with U.S., Asian, and European vehicles, 1996 and newer. The eight-inch touchscreen Android-based tablet features a quad-core processor for maximum speed and efficiency.

Vehicle interface included.

Includes:
- 12 month Updates
- 24 months Warranty

Features:
- Universal TPMS sensors read and copy
- Autel TPMS sensor Programmming
- OBD Sensor learning
- DTC read and erase

AUTOLINK

AFFORDABLE DIAGNOSTICS SCAN TABLETS

AFFORDABLE DIAGNOSTIC

COMPLETE
DIY SOLUTIONS

The **AutoLink** scan tools are the ideal affordable diagnostic service tools for technicians and Do-It-Yourself (DIY) users to solve root problems quickly and accurately.

These tools offer easy on-screen instructions to access all available functions, read and clear vehicle trouble codes and view live data.

AutoLink tools enable DIY users to easily perform repairs and road tests, to check the vehicle emissions and to solve basic engine and drivability problems. Featuring the unique patented One-Click Readiness Key, this complete line of tools allows users to easily determine the cause of the Engine Light (MIL), clear codes and reset the indicators.

AutoLink tools are designed to provide the more experienced technician an affordable service tool. They offer thousands of troubleshooting code tips to help technicians save time during diagnosis and repair and improve the workflow.

ADVANCED DIAGNOSTICS & SYSTEM INFORMATION

ADVANCED DIAGNOSTICS & SYSTEM INFORMATION

ADVANCED DIAGNOSTICS FOR *BATTERIES*

Autel's MaxiBas systems are perfect for all types of electrical vehicle battery diagnostics. Thanks to advanced diagnostic methods and in-depth examinations, they carefully determine the actual state of the battery.

It can immediately identify the vehicle information and proceed with special tests for a professional analysis.

Autel manufactures specific products to provide the customer with an excellent service.

The BT609 with active conductance, an innovative method of analysis, makes precise measurements to be observed through its 7-inch touchscreen.

The BT608 allows to carry out a complete test and recording job with all the diagnostic readings needed. With a 5.5 screen you it is possible to manage the diagnostics connected to the car's ECU in a clear and precise way.

Several other products and accessories complete the MaxiBas line and are equipped with the best Autel diagnostic and detection systems.

MAXIBAS BT609

The MaxiBAS BT609 wireless battery and diagnostics system applies Adaptive Conductance, an advanced battery analysis method that produces a more accurate examination of the battery's cold cranking ability and reserve capacity, vital to determining a battery's true health. The 7-inch Android touchscreen tablet can display a quick health status of the existing battery, register a new battery and perform advanced battery and electrical system diagnostics.

The BT609 supports AutoVIN function to immediately identify vehicle and battery information, displays graphic instructions for positioning, performs tests, read/clear codes on all available vehicle systems and perform common maintenance services. MaxiBAS BT609, thanks to the Wi-Fi connection, prints and shares personalized reports.

INCLUDES:
·   24 months Warranty

FEATURES:
·   Battery and electrical system diagnosis
·   Test 6/12/48-volt batteries
·   Test on cranking system
·   Test Flooded, AGM, AGM Spiral, EFB and GEL batteries
·   AutoVIN, VINscan & plate scan
