

Air Brake Metric Push In Coupling

Applications:

Used with tubing per DIN74324 or DIN73378 for the compressed air circuits used on commercial vehicles.

The couplings' operating temperature is between -40°C to +100°C

(* The use of our couplings with other media than air is not permitted without prior approval.)

Features:

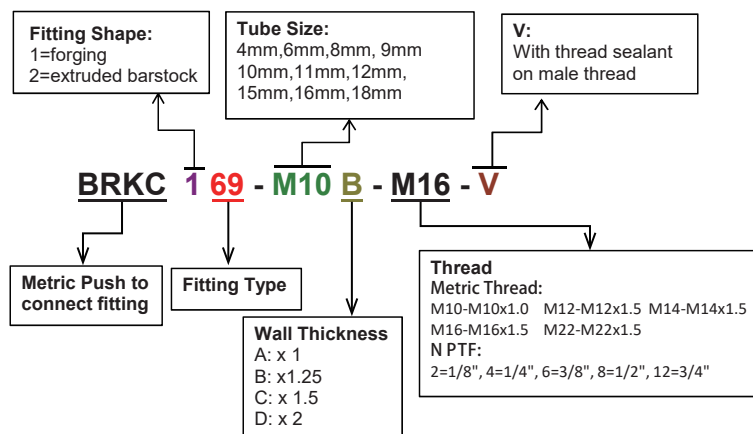

*Material: Brass, EPDM O Ring

*Easy and fast assembly by hand, no special tools asked

*Reuseable : connect and disconnect numerous times

*Positive Seal: After tubing is inserted, seal is made no leakage.
