WWW.FUNDICA0BB.COM.BR

Hello, we are Fundição BB.

We have been in the market for over **39 years**, manufacturing the highest quality parts for various sectors. We are a solid family business, **who knows the demands of the sector, offering the highest quality parts in cast gray iron, nodular iron and special alloys for industries in various segments.**

The Fundição BB, is investing in the automation of production processes, always targeting to improve the quality of the final product.

Through our foundry structure we also attend other segments according to the project, such as: **automotive, fitness, construction, wheels, castors, reducers, etc.**

The **FBB** is located in **Monte Alto**, interior of the state of São Paulo, and is recognized in the national and international market for the **quality and durability** of the parts that it produce, through the commitment and excellence at every stage of the manufacturing process. This recognition is the result of constant investment in training our professionals, as well as **new technologies.**

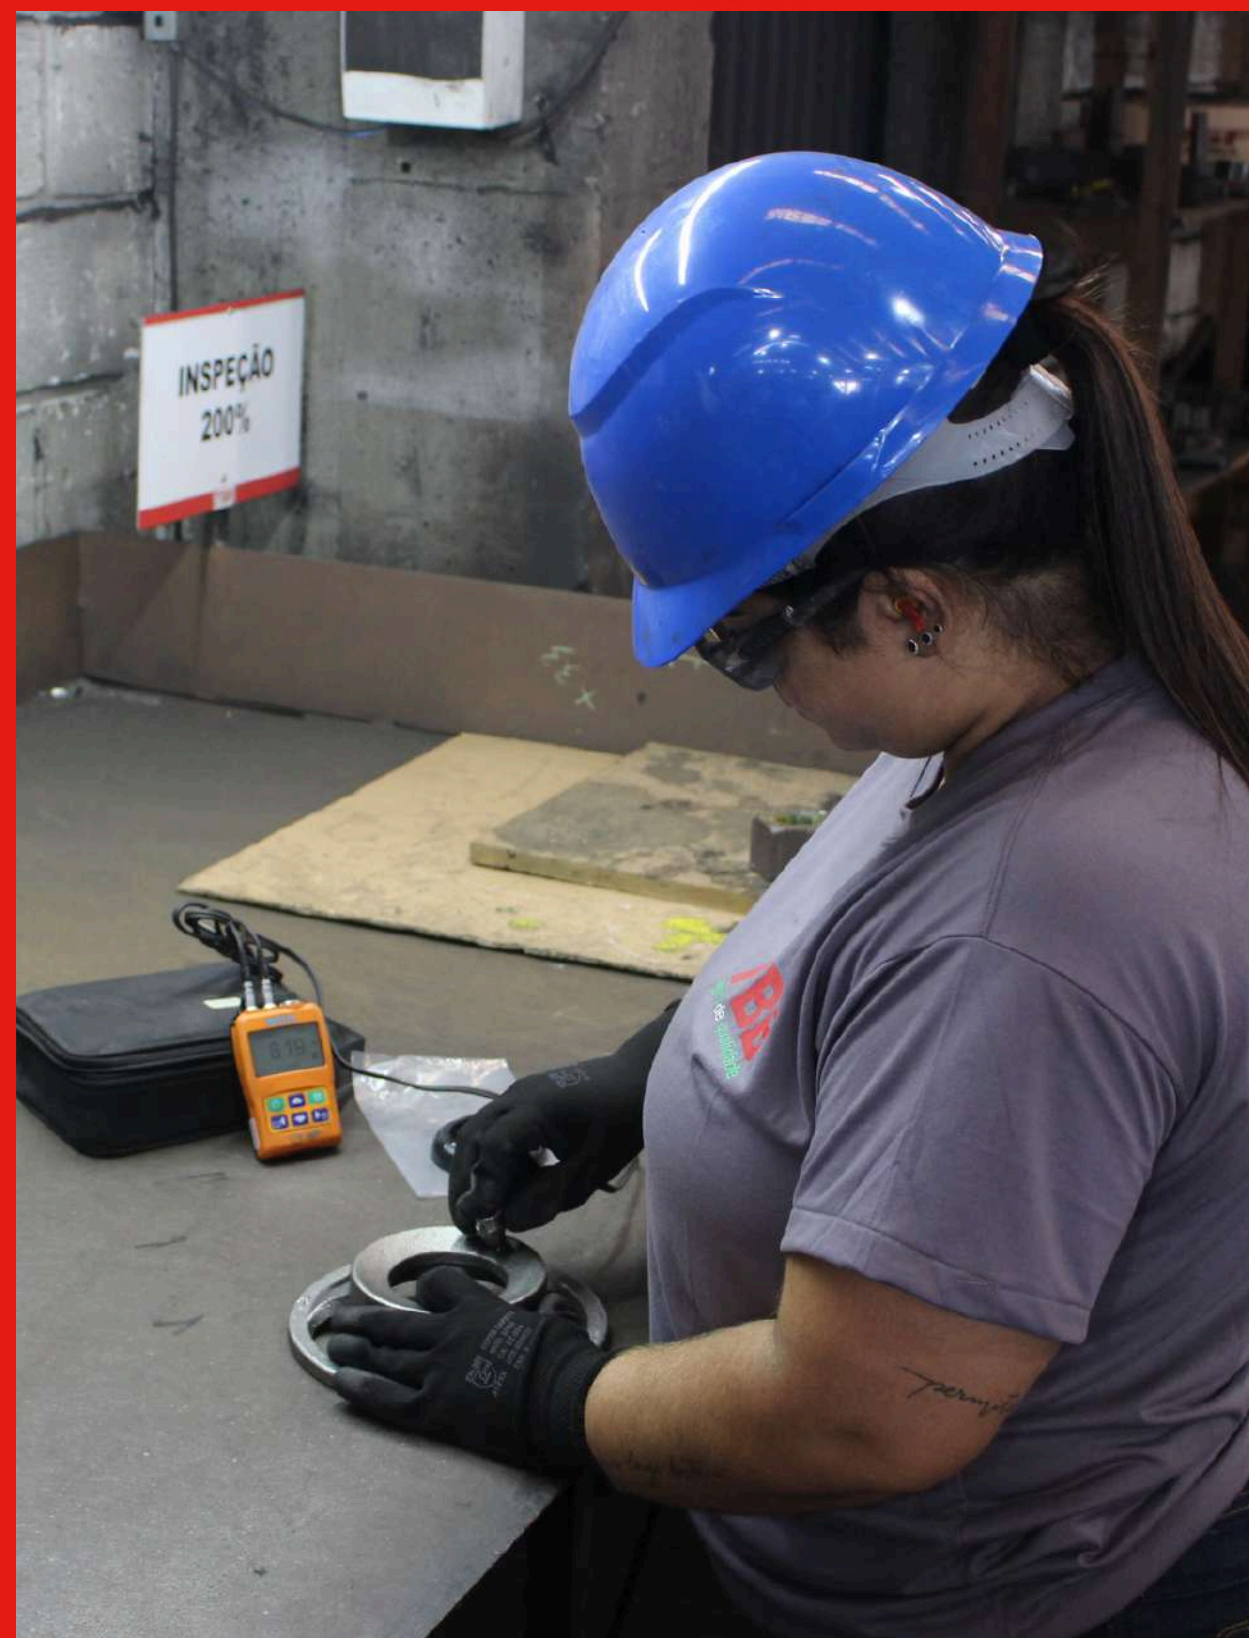

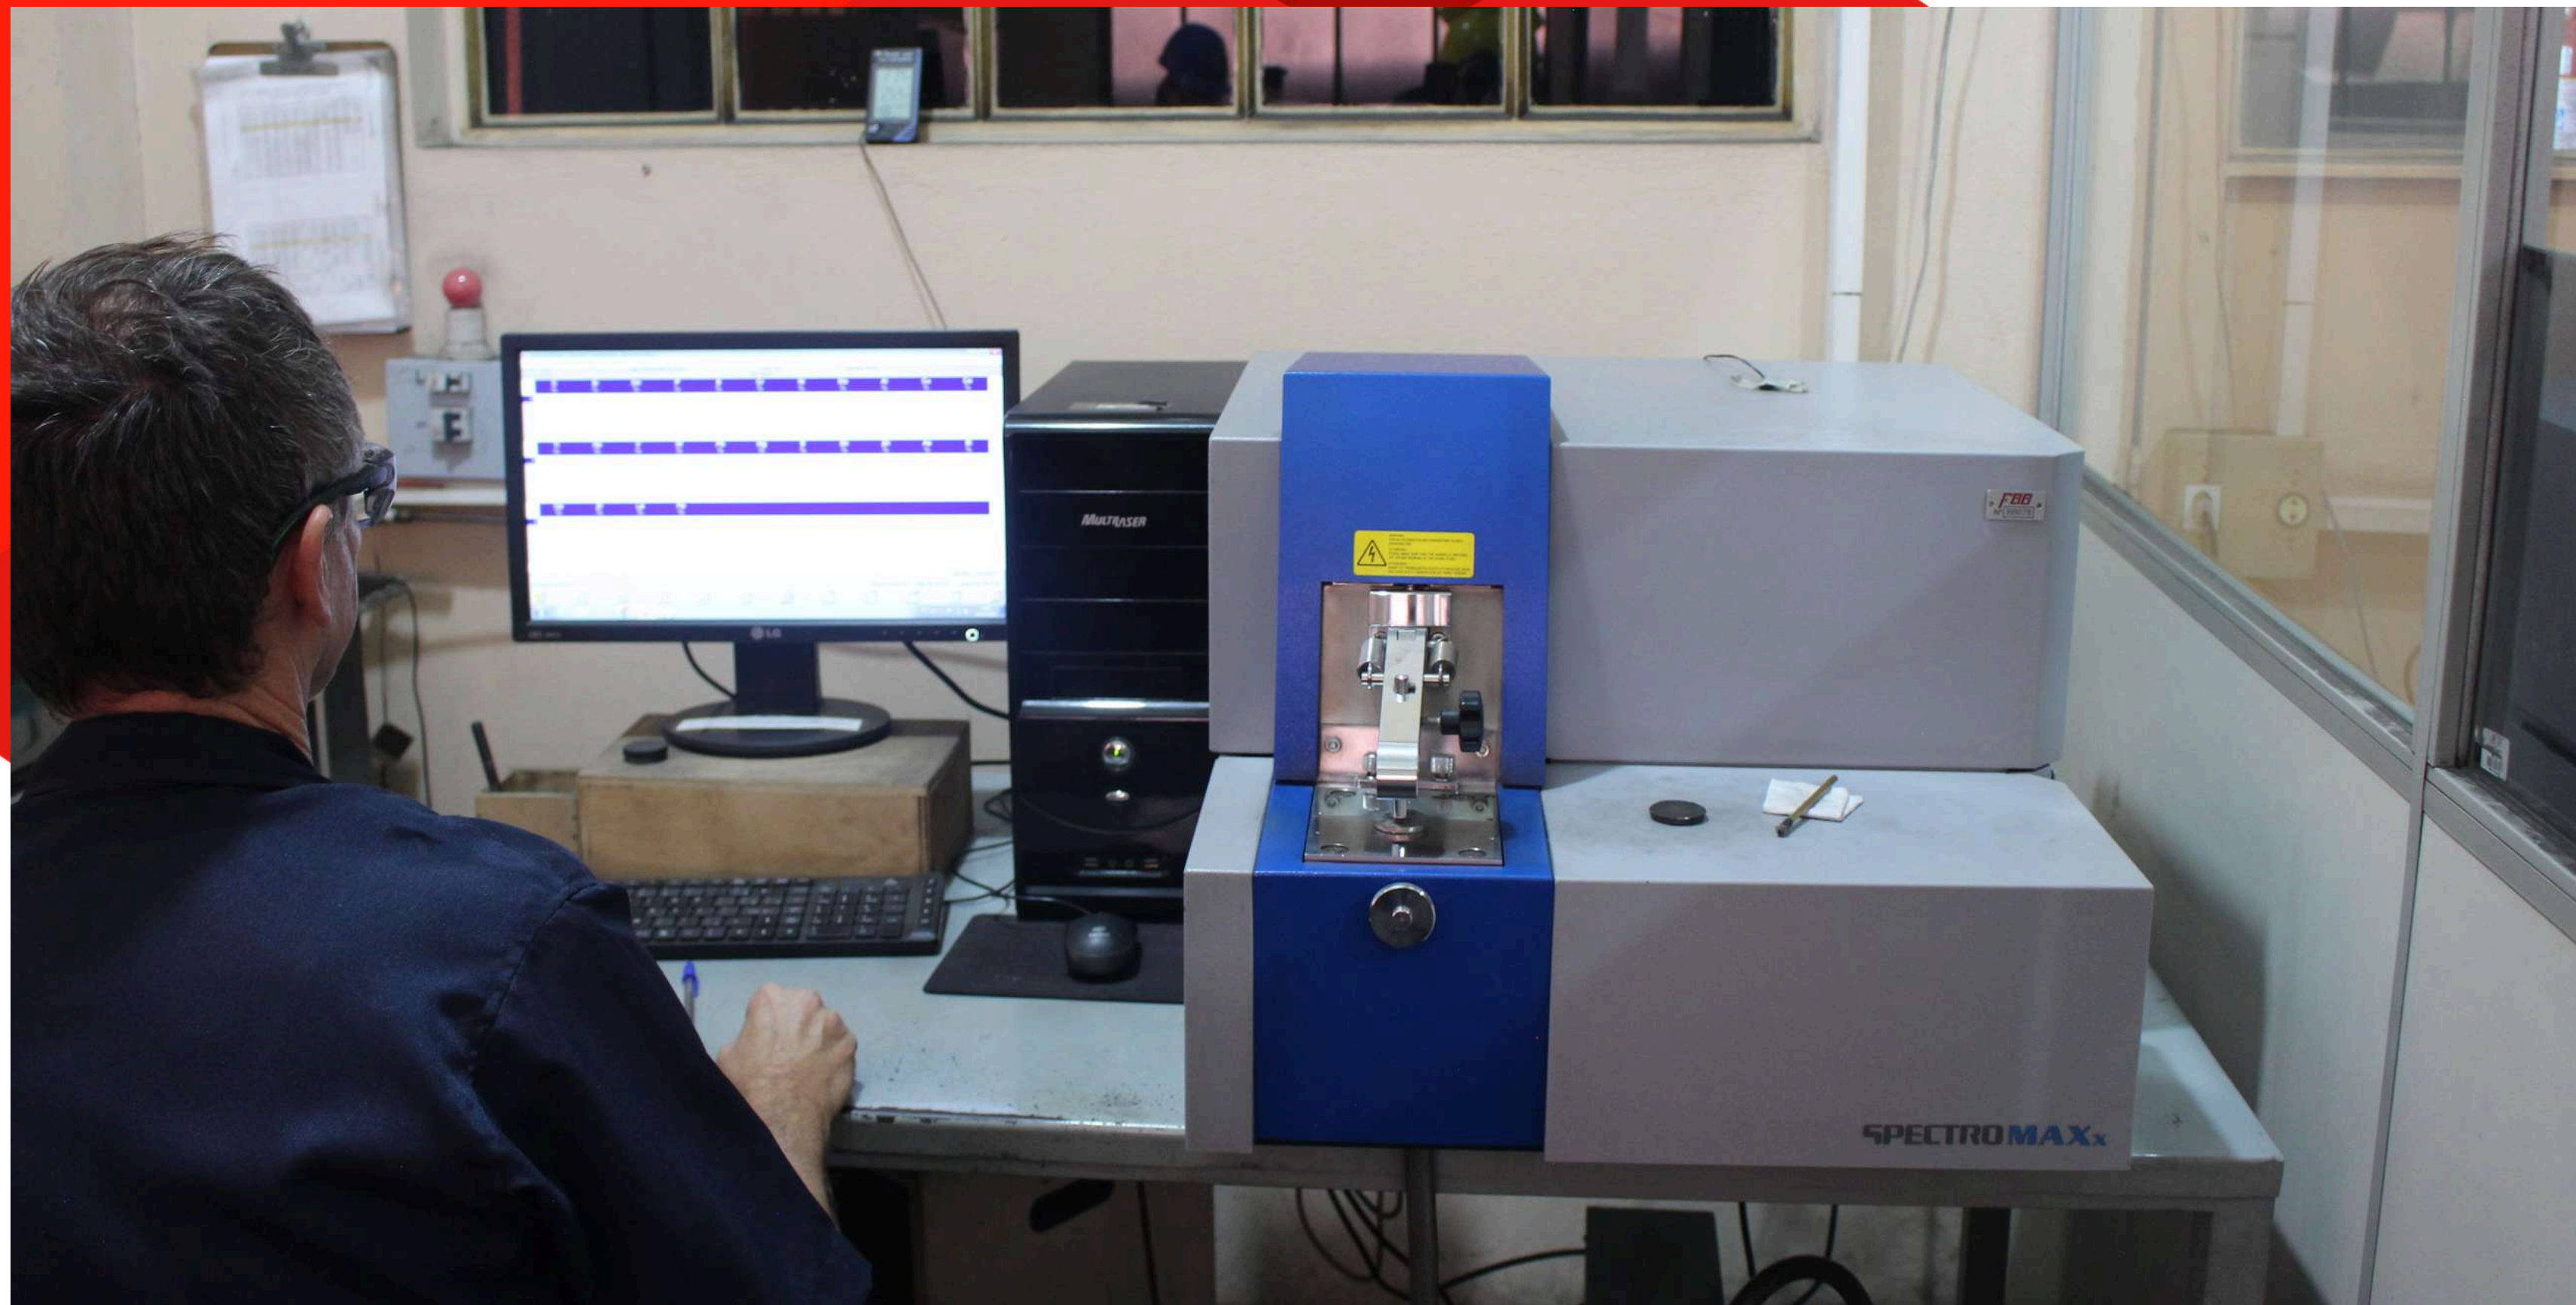

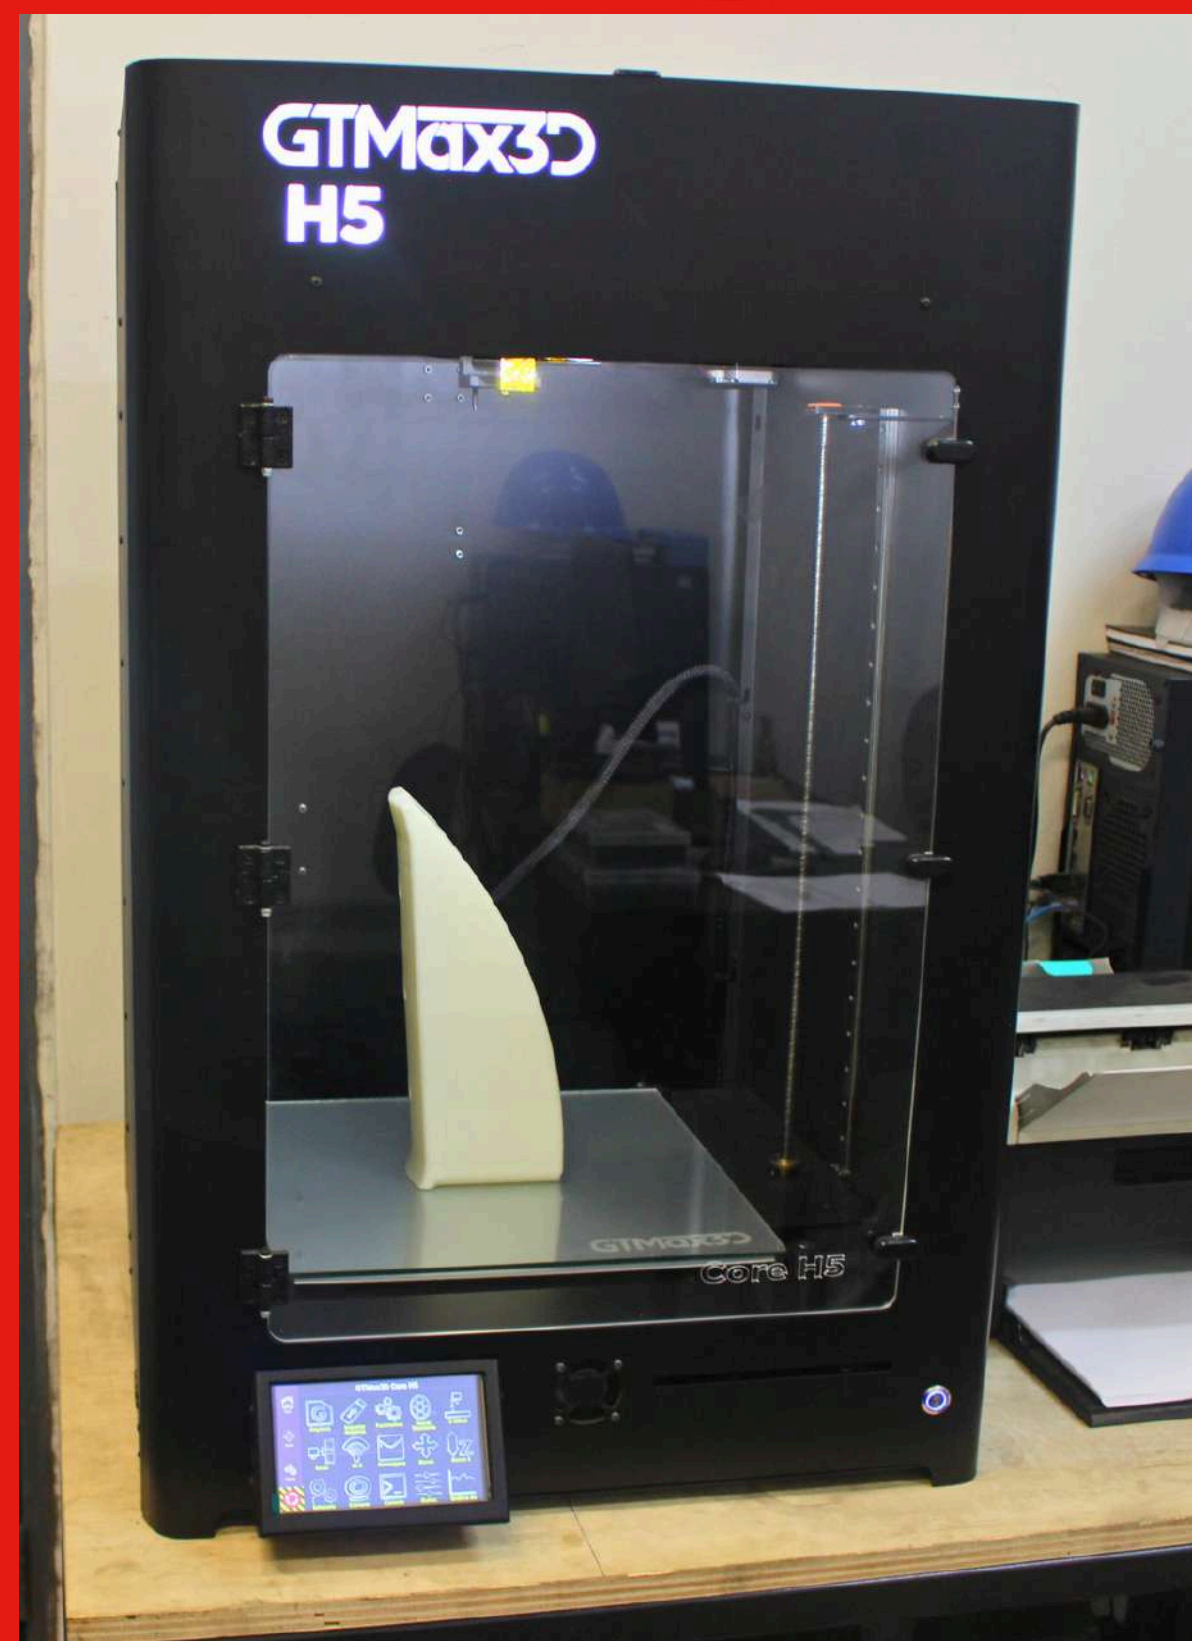

OUR MISSION

Satisfy the expectations and requirements of customers and the quality management system. Contribute to the continuous professional development of our employees. Continuously improve the effectiveness of our processes and services.

STRUCTURE

FBB is located in the industrial district and has a production capacity of 600 tons/month.

We have a total area of 25,000 m², being 12,000 m² of built-up area.

FBB has more than 170 employees, who work from customer service to production.

OUR PRODUCTS

CLAMPING LEVERS,
MEASURING ROD AND
WASHERS

FBB DIFERENCIAIS

- Sand control system, unified with automatic machinery: AMC + PAN + DISAMATIC;
- We produce pieces from 100 grams to 300 kilos;
- 2 Induction Furnaces of 1,000KW, with 4 crucibles with a capacity of 2 tons each;
- Disa and FBO automatic molding process;
- 1 DISAMATIC MK2 2110 Machine;
- 1 FBO 3 Machine;
- Manual resin molding (continuous mixer);
- In-house machining;
- ISO 9001:2015 certificate.

COMPLETE LABORATORY

- Chemical Laboratory: Microscope + Spectrometer;
- Mechanical Laboratory : Durometer + Tensile Strength + Ultrasound;
- Sand Laboratory: Complete Analysis of Green Sand.

ALLOYS:

- Grey;
- Nodular (all alloys, including special alloys).

* We issue a quality certificate for all the parts we produce, providing a greater guarantee, reliability and product traceability.

MAIN CUSTOMERS

The Fundação BB supplies castings to various industries/assemblers on the national and international market.

Make your quotation with us.
