## THE ALBATROSS MOBILE SPRAY BOOTH

Makes body repair work a breeze

The Albatross Mobile Spray Booth is the perfect time and cost saving machine for small body repair work, allowing users to quickly isolate and treat only the specific area of a vehicle that needs repairing.

This allows huge savings in energy consumption in comparison to using a traditional fixed paint booth and huge savings in time as smaller repairs get turned around quickly and easily.

## KEY BENEFITS

### TIME SAVINGS

Turn small repair jobs around within 2-3 hours without interfering in the main oven operations.

### COST SAVINGS

Up to 94% savings in energy consumption in comparison with a traditional paint oven.

### CARBON SAVINGS

Up to 98% reduction in CO2 emissions compared to traditional paint ovens.

### SPACE SAVINGS

Compact & mobile design allows maximum flexibility while taking up a minimal amount of workshop space.

### QUALITY FINISH

Powerful 4 stage filtration system gives a totally dust-free environment to the operator every time.

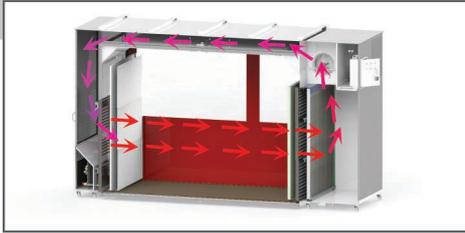

### FINANCE AVAILABLE

Enjoy the cost saving benefits of Albatross right away and pay over 3 or 5 years.

# KEY FEATURES

The **4 stage filtration system** gives a constant supply of fresh air into the paint booth while simultaneously removing all volatiles from the painting environment

Paint stop filter, secondary filter & carbon filter with clean air filter

The **high quality shadeless lighting** system is designed to simulate daytime lighting conditions

LED Lights

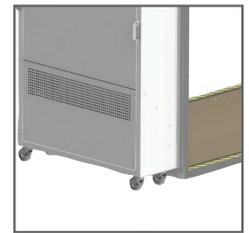

The **built in heaters** allow the paint booth and any panels situated inside to obtain the ideal painting temperature in minutes giving a flawless finish

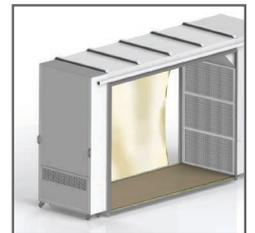

**Easy to use stop/start controls** for the heating / lighting and fans

**8 heavy duty castors** allow for easy manoeuvrability of the paint booth around the paint shop

**Durable weatherproof timber flooring** with safety strips
