BENEFITS OF COOPERATION

Direct relationships

All commercial transactions take place with the Manufacturer as a direct distributor, without the participation of intermediaries.

Convenient terms of cooperation

As a Manufacturer, we will offer you a system of attractive discounts, and in the case of long-term cooperation, additional gratification.

Continuity of supply

We have developed an efficient and uninterrupted production process. Thanks to this, we guarantee our Customers a constant supply of goods.

Fast order fulfillment

Thanks to systematization of production which has been functioning for many years, we guarantee efficient shipment of goods, within 1-3 working days.

Professional service

We guarantee you care at every stage of order processing. A designated sales representative is responsible for efficient communication and successful cooperation.

Individual approach

We focus on an individual approach to the customer. We execute non-standard projects, on special order. We have many years of experience and high competence necessary to implement large and demanding projects.

Current information about novelties

The sales offer is updated every week,, thanks to which the Customer is informed about new products.

Good, because Polish

The entire production process takes place in Poland. The company employs Polish workers and selects local suppliers, supporting the Polish economy. We offer products at the highest, world level taking into account the latest technologies.

Access to multimedia materials

We provide our Clients with access to a database containing several thousand professionally taken product photos. The photographs may be helpful in your sales.

TECHNOLOGY

We are constantly investing in modern machines and technologies in order to improve production processes and processing capacity. We have at our disposal a machine park which made it possible to automate manual processes. Our overriding aim is to constantly develop and improve production of automotive accessories. We use the following technologies:

- Fiber laser cutting
- Production of Carbon Fiber components
- CNC bending, stamping and milling
- Vibro Grading
- Coating with 3D resin
- Digital printing

We work on materials such as: stainless steel (with various finishes and colors), aluminum, carbon fiber and various types of foils: PVC, reflective, carbon and magnetic.

We are happy to implement non-standard projects. We encourage you to send your own concept and discuss the details with our consultant.

SEE OUR PRODUCTS

It is possible to organize a video conference combined with a product presentation. We operate in a flexible and open manner, understanding the individual needs of each Client.

All Avisa's novelties are proudly presented at prestigious world automotive fairs such as: SEMA Show in Las Vegas, Automechanika Frankfurt, ESSEN Motor Show or International Motor Show in Geneva. Information on which exhibition halls are planned to be attended this year can be obtained from the sales representative.

METHOD OF PACKING

- Foam film and inner cardboard wrapping are used to protect the rear bumper protectors. The profiled door sills are protected by bubble foil and a cardboard wrapping.
- Next, the products are packed in white cardboard packaging with the manufacturer's markings.
- Goods packed in this way are put into a shipping box, in which the spaces are additionally filled with packing paper in order to avoid springing of the product and possible damage.
- Car accessories such as foils or tapes are packed in plastic, transparent blisters and then in a cardboard shipping box.

GLS.
Parcels to People

TRANSPORT

- For international shipping, we cooperate with international carrier GLS.
- Delivery time (subject to the availability of the assortment) is 1-3 business days (this time does not include transportation).

HOW TO START COOPERATION

Good relations, efficient communication, trust and mutual respect are important to us in contacts with Clients. We start our cooperation with getting to know the individual needs of the Client. On this basis, we prepare a dedicated offer with a list of products and wholesale prices. After a thorough discussion and acceptance of business conditions, the Customer places an order online. As a result, a proforma is sent, which should be paid on delivery or as a prepayment to a bank account.

The sales manager responsible for cooperation keeps you informed about the status of your order. We guarantee you a professional service, efficiently leading through all stages of order processing. We also provide full after-sales support. We try to respond to possible complaints in the shortest possible time. We are open to any comments and remain flexible in adapting to your needs.
