To meet increasing demand for Pumps and react to the ever-changing parts landscape, engine specialists at Autopumps UK, are always working to further increase our range of high quality parts and meet your customer supply needs.

Autopumps pump range offers an extensive application coverage across the passenger and commercial vehicle parc. Our focus is on producing the highest quality products and service, making sure your replacement is reliable and sourcing is fast and simple.

**In this image: AWP8011*

Our comprehensive range of quality aftermarket products are supplied Worldwide from our distribution centre in Milton Keynes, UK. The Autopumps brand has established itself to be synonymous with quality products, reliability and excellence in service. Ask about our extensive range of engine components today!

WHAT DOES AN INTERNAL COMBUSTION ENGINE

OIL PUMP DO?

The job of the Oil Pump in an internal combustion engine is to circulate engine oil (under pressure) to the bearings, pistons, cam-train and valve-train of the engine. This lubricates the engine parts and also assists in cooling.

In addition to its primary lubricating function, pressurized oil is increasingly being used hydraulically to power various actuators in the engine.

Common uses of this kind include; hydraulic tappets in camshaft and valve actuation, tensioners for timing systems and variators for variable valve timing systems, all of which are included in Autopumps extensive engine parts range.

COMMON SYMPTOMS OF

OIL PUMP FAILURE

LOW OIL PRESSURE

A bad oil pump will lose the ability to properly pump oil through your system. This will result in low oil pressure that could lead to further vehicle damage.

INCREASED ENGINE OPERATING TEMPERATURE

Oil reduces the friction on the parts in your vehicle, which in turn keeps temperatures regulated while the vehicle is in operation.

When the flow of engine oil is reduced, the parts don't remain properly lubricated and thus heat up.

Increased friction leads to increased temperatures and possibly more problems down the road.

NOISE

Your vehicles hydraulic lifters are an important part of your engine's operation and it is important that they are adequately lubricated.

When your engine is working properly these lifters are virtually silent, but when the flow of oil is cut off to the lifters they begin to make noise and wear unevenly.

It is extremely expensive to have lifters replaced and extremely important they are properly lubricated.

While most drivers may never need to change their oil pump, it is important to know the symptoms in case you are experiencing problems with your vehicle.

Your oil pump is an integral part of your vehicle's engine performance, and if it fails it could cause serious damage to your car.

An engine oil pump sucks oil out of your oil pan and pumps it through your oil filter onto the bearings.

**In this image: AOP136*

HOW DOES A

WATER PUMP WORK?

A water pump is vital to a car engine's operation because it ensures the coolant keeps moving through the engine block, cylinder head, hoses and radiator, and maintains an optimum operating temperature.

It is usually driven by a belt from the crankshaft pulley or sprocket.

A car's water pump uses impeller blades and centrifugal force to move the coolant through the various passages and hoses that make up the cooling system.

Once the coolant has flowed around the engine it is taken by hoses to the radiator, usually at the front of the car, where the hot coolant is cooled by the movement of air over the radiator's fins.

It then exits the radiator and flows back into the water pump, where the process starts over.

**In this image: AWP2114*

COMMON SYMPTOMS OF

WATER PUMP FAILURE

OVERHEATED ENGINE

When the water pump fails completely, it will not be able to circulate coolant through the engine block. This results in an overheating situation and if not repaired or replaced quickly, can cause additional engine damage like cracked cylinder heads, pushed head gaskets, or burnt pistons.

SOUND

If you hear a high-pitched whining noise that comes from the front of your vehicle's engine, it could be a sign that the water pump is dying. The water pump uses a pulley or belt in its operation, and if this pulley is too loose, it will make a whining sound that some describe as harmonic buzzing. This noise is also caused by worn bearings inside the water pump's motor.

RADIATOR STEAM

Another immediate indicator of a faulty water pump is steam coming from the front side of your vehicle. Water needs to circulate to your radiator and cool it. Bad water pumps will not sufficiently cool your radiator and therefore heat the water to produce steam that will escape from the front end of your car.

FLUID LEAK

The water pump is comprised of multiple gaskets and seals that keep coolant contained and ensure that consistent flow of coolant is delivered from the radiator to the engine. Eventually, these gaskets and seals will wear out, dry up, crack or break entirely. When this happens, coolant will leak from the water pump and drop to the ground, typically in the front of your car and in the center of the motor's location.

BOUNCING TEMPERATURE GAUGE READING

The temperature reading should always remain in a stable normal state while the engine is running. Should you notice a sudden shift from low to high and high to low, there is a problem with your radiators or water pump.

Disclaimer: This information is not intended as a substitute for the professional advice of a qualified automobile mechanic who has personally inspected the vehicle for purposes of diagnosis or repair. You should always seek the advice of the automobile manufacturer, the dealer where the automobile may have been purchased, a qualified mechanic or other qualified professional with any questions you may have regarding automobile safety, maintenance, or repair.

Let us introduce you to our

BESPOKE PROGRAMME

We turn your ideas into reality!

Our specialist team of engineers, with a wealth of experience throughout different mechanical backgrounds, will help you to utilise our bespoke parts to become items of working practice.

-▶ **Concept** From CAD drawings, samples or even just your ideas, Autopumps UK will develop these parts to become an item of today.
-▶ **Design**
-▶ **Finished product**

Affordable solutions | Highest standards
Latest technology | Personal approach

Autopumps UK division:

COMMERCIAL PARTS

Purposely structured to dedicate a supply chain
to the commercial parts world for
Agricultural, Marine, Industrial & Heavy Duty pumps.

All products are manufactured in fully certified ISO:9001:2015 & TS16949 compliant,
OEM manufacturing plants.

Covered by our experienced team of specialist engineers to carry out full audits to ensure that
the latest technical specifications are adhered to.

Learn more about our Commercial Parts division at
www.autopumps.co.uk/commercial-vehicles
or contact our team to learn more!

CONDITIONS OF SALE

GENERAL

These conditions prevail over any conditions that the purchaser's order may purport to impose and which are at variance with the same. No modification of these conditions shall be binding upon the Company unless specifically accepted in writing by the Company. We cannot accept claims for errors in any catalogue that may have been made inadvertently. We reserve the right to make technical changes.

DATA PROTECTION

Each party, being Autopumps UK Ltd and client, agrees to comply with their respective obligations under the Data Protection Act ('DPA') and General Data Protection Regulation ('GDPR').

TERMS OF PAYMENT

- (a) Orders for customers without an account are accepted subject to approval of reference or cash with order.
- (b) Unless otherwise stated, accounts are due for payment not later than the end of the month following the month of despatch. When deliveries are spread over a period, each consignment shall be invoiced when despatched and each month's invoice shall be treated as a separate account and shall be payable accordingly.
- (c) We reserve the right to charge 4% over the base rate of The Bank of England on extended terms of payment and overdue accounts.
- (d) Overseas – The method of payment shall be determined prior to, or at the time of confirmation of order.

PRICES

The Company reserves the right to vary the quoted price and goods will be invoiced to the purchaser at the prices ruling at the date of despatch unless otherwise agreed by this Company in writing.

GUARANTEE/ WARRANTY LIABILITY (12MONTHS OR 12,000MILES/20,000KM)

The Company will replace or credit the purchaser with the value of any defective goods of its manufacture if the Company is satisfied such defects arose solely through faulty material or workmanship and such goods are returned carriage paid immediately upon discovery of the defect and in any event not later than twelve months from the date of despatch, delivery to the customer or its agent or 12,000 miles, whichever the lesser and verified to the satisfaction of the company. The Company shall in no circumstances be liable for any consequential loss or damage. Any parts that are to be replaced must be agreed by Autopumps UK Ltd or its representative and must be of equal value, if parts cannot be obtained from aftermarket sourcing then permission must be granted by Autopumps UK Ltd for the use of any O/E parts. No warranty applies to goods supplied by the Company that are used in any form of motor competition, racing or for performance purposes.

EXCLUSION OF LIABILITY

These conditions are in substitution for and exclude, so far as is allowed by law, all and any express and implied and other warranties, guarantees, representations, conditions and liabilities (including, without limitation any condition as to merchantability or fitness for any purpose).

ACCEPTANCE OF ORDERS/RETURN OF GOODS

Quotations do not constitute an offer by the Company to supply goods and no orders shall be binding unless accepted by the Company in writing. Orders made specifically to the customer's requirements cannot be cancelled. All other orders placed cannot be cancelled except with the Company's consent. Goods returned without the company's consent will not be accepted for credit and shall remain the sole risk and at the sole liability of the customer. Any goods which are accepted by the Company for return will be subject to a 15% handling charge.

DELIVERY DATES

While the Company will do its utmost to keep its promised delivery dates they are to be treated as estimates only. The company accepts no responsibility for loss or damage resulting from delay in the delivery of goods. Delays due to circumstances outside the control of the Company shall not entitle the purchaser to cancel any order or to refuse to accept delivery.

DESCRIPTIONS

Every effort is made to ensure that its products are accurately described by the Company and are fit for the purposes and applications stated on the Company's catalogues but the Company gives no warranty to this effect and accepts no responsibility for any loss or damage arising from errors or incorrect descriptions in its catalogues. The persons fitting these replacement parts must satisfy themselves visually, prior to installation, that they are appropriate and suitable for their intended purpose. If in doubt contact your supplier.

DAMAGE OR LOSS IN TRANSIT.

Claims for damage or loss in transit must be sent to the Company in writing in sufficient time for the shipper and insurers to be notified within any stipulated claim time. The Company's liability for loss or damage in transit shall be limited to the amounts (if any) recovered from the shippers and insurers less any costs of the Company in connection with a claim. The seller does not accept responsibility for any damage, shortage or loss in transit unless:

- (a) Notification of damage, loss in transit, or shortages are notified to the Seller
 - (i) within 7 days where delivery is made by the Seller's own transport or
 - (ii) within 3 days of receipt of goods carried by any other carrier. The carrier's receipt should be endorsed accordingly and a copy sent to the Seller within 10 days of the date of despatch.
- (b) Non delivery (Total Loss) must be notified to the seller within 10 days from the date of despatch.
- (c) General Claims.

All other claims must be notified within 30 days of receipt of goods. In the absence of notification of claims within the period aforementioned the goods shall be deemed to have been delivered in accordance with the Contract.

INTERPRETATION

The Contract in all respects is governed by English Law and the Purchaser hereby irrevocably submits to the jurisdiction of the English Court.

PROPERTY

Property in or title to goods and materials supplied by the Company shall not pass to the customer until all monies due and owing from the customer to the Company on any account whatsoever (whether or not relating to any particular goods in question) have been paid in full. All monies received by the customer from its purchaser of the goods or materials supplied by the Company shall be held by the customer in trust for the Company.

Until such time as the title to the goods passes to the customer, the customer shall hold the goods as the Company's fiduciary agent and bailee, and shall keep the goods separate from those of the customer and third parties and properly stored, protected and insured and identified as the Company's property. The customer hereby authorises the Company to enter upon any of the premises of the customer for the purpose of repossessing any of the goods or materials supplied in which the title has not passed to the customer. Where goods supplied by the Company can be identified on the premises of the customer, and the company can produce invoices or other evidence of supply of such goods, this evidence will be accepted as proof of supply of the goods by the Company irrespective of whether or not the invoice can be specifically related to the particular item/s at the customer's premises. Notwithstanding the provisions of the clause and Section 49 (1) of the Sale of Goods Act 1979. The Company may bring an action for the price due under these Terms at any time after the price has become payable under these Terms.

CARRIAGE

UK - A minimum carriage charge of £6.75 is applicable to each parcel as required and a minimum charge of £25.00 per pallet.

International – Shipping terms to be confirmed, freight charges will apply. Manufacturers part numbers are used for reference purposes only and any cam follower, hydraulic lifter or rocker arm measurement listed will vary in accordance to the range of associated part numbers.

These Terms and Conditions supersede all previous publications.
