SHIELD

COBRA
UNDERBODY

- This anti-corrosion epoxy coating is exceptionally durable and **provides the highest level of underbody protection**. It effectively protects against rust and all external factors - like a shield that protects the vehicle from underneath.
- Why is **Cobra Underbody Shield** the most effective anti-corrosion solution? Because it completely cuts off the external factors that initiate metal corrosion - moisture and road salt - contains active corrosion inhibitors, and offers top-level protection against mechanical damage.

CHOOSE THE MODERN UNDERBODY PROTECTION SYSTEM!
