

**NEW RELEASE!**

# SPEEDPLATE

The revolution in wheel balancing centering

What sets us apart from other products on the market?  
*The new SpeedPlate is engineered to deliver faster, safer, and longer-lasting performance in wheel balancing. Every detail is designed with real workshop efficiency in mind.*

- Patented break-away feature - virtually indestructible.
- Built-in grip for quick and easy PCD adjustment.
- Saves up to 25 mm of shaft space.
- Stiffer than 7075-T6 aircraft-grade aluminum.
- Lightweight, robust, and built for high duty cycles.
- Optional AutoClamp handles available.

*Improve centering accuracy, reduce errors, and boost speed and productivity.*

*SpeedPlate - setting a new standard in professional balancing.*
