Product overview

HIGH PERFORMANCE FURNISHING TEXTILES

Baltex designs and manufactures a wide range of high performing Furnishing Textiles, with manufacturing, research and development facilities in both the UK and Poland. Baltex also has a close working relationship with the University of Bolton in the UK, a world leader in the development of Technical Textiles.

Since the foundation of the company in 1831, innovation has been at the heart of our business. In 2010 the company won the TI World Conference prize for innovation. The company has also won two Queen's Awards for International Trade. With more than 188 years of experience, Baltex is shaping the future of technical textiles.

2980
Warp Knit Polyester
Weight: 116-136g/m²
Width: MIN 187cm

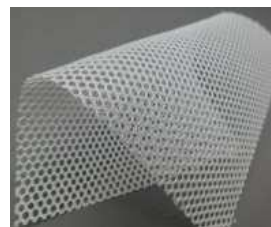

4472
Polyester Mesh
Weight: 175-205g/m²
Width: MIN 120-122cm

4169
Polyester Mesh
Weight: 320-370g/m²
Width: 150-153cm

BGS863T
Strong Polyester Mesh

7081
Polyester Mesh
Weight: 130-140g/m²
Width: 140-143cm

5712
Polyester Mesh
Weight: 380-420g/m²
Width: 150-160cm

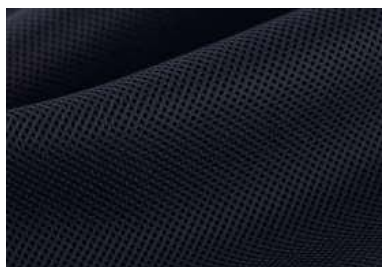

OUR CAPABILITIES

Baltex work with the following fibres: Meta-Aramid, polyester, High Tenacity Polyester, Technora GTN and Nylon (Polyamide), we are interested in working on new development projects, any customer enquiry will be taken into consideration.

Some of the finishes we can produce: dyeing, fire retardancy, antibacterial and water-repellency.

We have full testing facilities in our Laboratory. Our approval to ISO 9000:2001 by Lloyds Register Quality Assurance has been part of our continuing drive to improve both the quality of our products and the level of customer service. We are approved for the supply of all warp-knitted and weft-knitted fabrics. Baltex will soon be accredited to EN ISO 14001.

M3730

Polyester Spacer

Weight: 300-320g/m²
Width: 148-152cm
Thickness: 3mm

M3371

Double Mesh Spacer

Weight: 465-515g/m²
Width: MIN 210cm
Thickness: 10mm

M3550

Aramid Mesh

Weight: 140g/m²
Width: 100cm

M8180

Double Mesh Spacer

Weight: 550-620g/m²
Width: MIN 185cm
Thickness: 6mm

NPD 88

Spacer Fabric

Weight: 650-700g/m²
Width: 155-165cm
Thickness: 5.5-7mm

3250

Stretch Spacer

Weight: 380-420g/m²
Width: MIN 136cm
Thickness: MIN 2.5mm

CUSHIONING

Baltex is a leading producer of 3d knitted fabrics in Europe. Spacer fabrics are three-dimensional fabrics that can be knitted to a thickness of over 30mm. In seating applications, they can be used as a cushioning instead of materials such as foam in order to create bulk without hindering air and moisture to penetrate through the fabric. In contrast to foam, 3D Spacers are breathable due to their particular construction that enables an optimal temperature and moisture management.

OFFICE CHAIRS

Our fabrics can be used for a wide range of applications. One of them is seating, for example for office chairs. Baltex have a range of strong mesh fabrics that can be supplied to customised colours for as little as 350m per shade. Our polyester mesh fabrics are high tenacity and have good abrasion resistance and meet a range of FR requirements. Widths supplied can be 150 to 180cm wide to optimise cutting lines.

M3400

Polyester Spacer

Weight: 450-550g/m2
Width: 135-145cm

8660

Polyester FR Spacer

Weight: 310-360g/m2
Width: 170-180cm
Thickness: 2.5-3.5 mm

M3605

Polyester Spacer

Weight: 750-900g/m2
Width: 160-165cm
Thickness: MIN 6.5mm

7412

Polyester Spacer

Weight: 390-480g/m2
Width: 155-160cm
Thickness: 4.5-6mm

9190

Polyester Spacer

Weight: 690-760g/m2
Width: 137-143cm

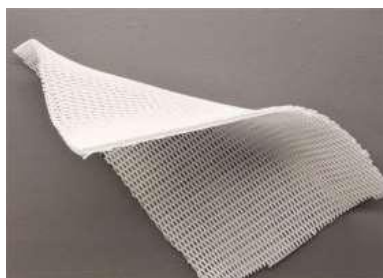

8270

Meta-Aramid Spacer

Weight: 520-580g/m2
Width: 160-170cm

MOST RECENT DEVELOPMENTS

NPD 236

Double mesh spacer

Weight: 200-250g/m²
Width: 185-200cm
Thickness: 2.75mm

NPD 75

Polyester Spacer

Weight: 280-310g/m²
Width: 195-200cm
Thickness: 2-3mm

NPD CD 337

Power Net

Weight: 262-270g/m²
Width: 160-166cm

NPD 316

Aramid Spacer

Weight: 200-300g/m²
Width: 170-180cm
Thickness: 3-3.5mm

NPD 323

3d Spacer
Coolmax Fresh

Weight: 380-450g/m²
Width: 175-185cm

NPD 228

Polyester Mesh

Weight: 210-250g/m²
Width: 150-160cm
