- SDG 13 Climate action

WERNERFELT

Sustainable production

In line with our policy that our production is as environmentally friendly as possible, Wernerfelt prioritises impact areas such as reducing water and energy use for our cotton and cotton/polyester production.

Presently, focus is placed on reducing our CO₂ footprint by converting to LED-light, Solar energy and by tree planting.

Wernerfelt also cares about the chemicals used and the impacts they have on the environment and health and as such, all fabrics from Wernerfelt are Oeko-Tex certified. In addition to the Oeko-Tex certification, we have 11 qualities certified under the EU Ecolabel.

The newest addition to our fabric range is a quality consisting of GRS certified recycled polyester and GOTS certified organic cotton.
