# Functional coatings on textiles

**NOPMA**  
Technische Textilien

made  
in  
Germany

\* **nopma** - coatings

Our target groups: Automotive | Aviation | Caravan | Furniture | Health | Protection |

Functional Clothing | More industries

# nopma anti-slip®

**NOPMA**  
Technische Textilien

made  
in  
Germany

\* applications with *nopma anti-slip®*

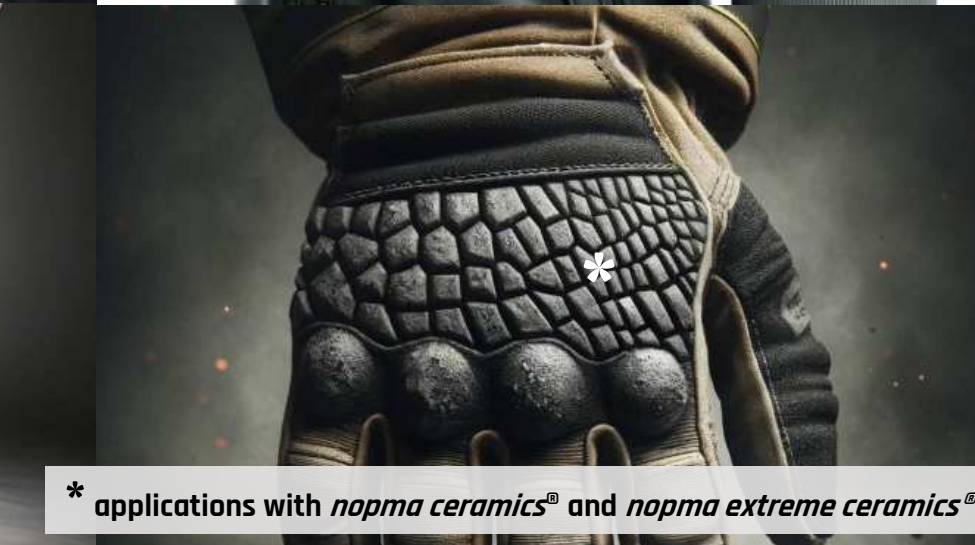

Our partial or full-surface **nopma anti-slip®-coating**, which can be applied in various colours as well as with different printings, gives your textile high-quality anti-slip properties.

# nopma ceramics® and nopma extreme ceramics®

**NOPMA**  
Technische Textilien

made  
in  
Germany

\* applications with *nopma ceramics®* and *nopma extreme ceramics®*

The protection system for extreme mechanical wear and tear. With **nopma extreme ceramics®**, you will see a huge increase in the wear resistance of your materials. Even extreme applications conforming to EN388 class 4 will have a little effect on the surface. This coating acts as an additional protective layer, making it significantly safer.

# nopma 3D shape<sup>®</sup>

**NOPMA**  
Technische Textilien

made  
in  
Germany

**\* applications with *nopma 3D shape*<sup>®</sup>**

Permanent shaping by the interaction of temperature and high pressure. Thermoplastic coatings and fibers obtain new effects in function and design. Materials change their properties through compression. In addition to optical effects, technical properties can be modified and new types of products can be designed.

# nopma HeiQ Viroblock

**NOPMA**  
Technische Textilien  
made in Germany

\* applications with *nopma HeiQ Viroblock*

The antiviral coating **nopma HeiQ Viroblock** is based on the technology of HeiQ Viroblock NP J03 and has an antimicrobial effectiveness.

# nopma biodegradable®

**NOPMA**  
Technische Textilien

made  
in  
Germany

\* applications with *nopma biodegradable®*

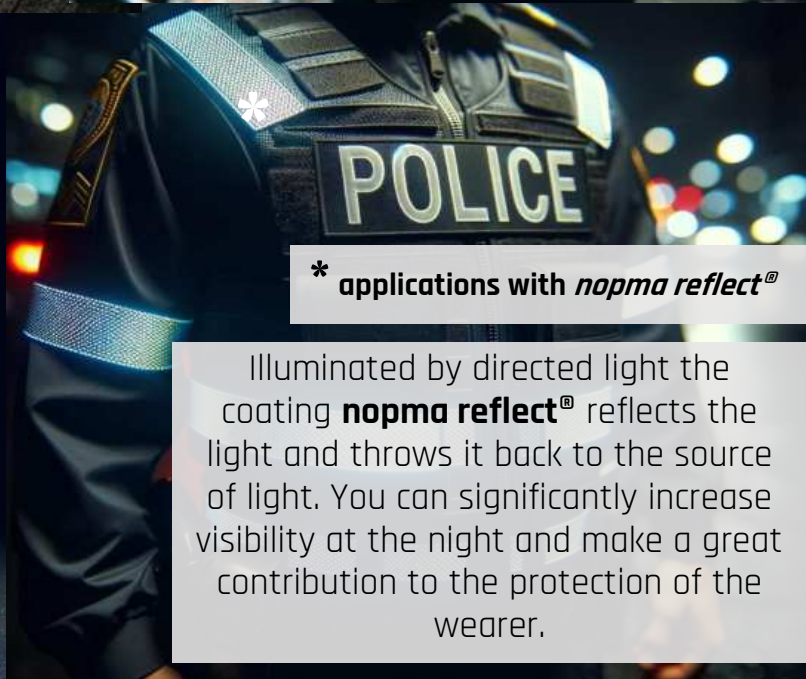

**nopma biodegradable®** is combining a technologically advanced textile coating with ecological sustainability.

# nopma reflect®

**NOPMA**  
Technische Textilien

made  
in  
Germany

\* applications with *nopma reflect®*

Illuminated by directed light the coating **nopma reflect®** reflects the light and throws it back to the source of light. You can significantly increase visibility at the night and make a great contribution to the protection of the wearer.

# nopma 3D protection®

**NOPMA**  
Technische Textilien

made  
in  
Germany

\* applications with *nopma 3D protection®*

The unique coating **nopma 3D protection®** creates an extraordinary three-dimensional textile effect. This outstanding solution offers completely new approaches to creating modern and comfortable functional clothing.

# nopma comfort control®

**NOPMA**  
Technische Textilien

made  
in  
Germany

\* applications with *nopma comfort control*®

**nopma comfort control**® allows specific moisture control and prevents wetness. By a moisture repellant finish only to one side, the natural absorptivity on the textile remains. A unique „membrane effect“ can be created.

# nopma silicones®

**NOPMA**  
Technische Textilien

made  
in  
Germany

\* applications with *nopma silicones®*

With our high-temperature resistant silicone coating **nopma silicones®** you can reach the safety protection standards **EN 407** and **EN 367**.

# nopma flame protection

**NOPMA**  
Technische Textilien

made  
in  
Germany

\* applications with *nopma flame protection*

**nopma flame protection** is the coating solution to either make your textile flame-retardant or to give another nopma product the additional feature.

# nopma carpet-fix®

**NOPMA**  
Technische Textilien

made  
in  
Germany

\* applications with *nopma carpet-fix®*

Carpet bonding with **nopma carpet-fix®** is simple and ingenious. No use of conventional liquid adhesives is necessary. The coated textile with **nopma carpet-fix®** simply gets cut and placed. By bonding with this special coating, the textile floor cover can be removed residue-free without solvent and with only little effort.

# nopma adhesion light<sup>®</sup>

**NOPMA**  
Technische Textilien

made  
in  
Germany

\* applications with *nopma adhesion light<sup>®</sup>*

**nopma adhesion light<sup>®</sup>** is a special adhesive pre-coating for simplified lamination of automotive interior surface materials.

# nopma bonding®

**NOPMA**  
Technische Textilien

made  
in  
Germany

\* applications with *nopma bonding®*

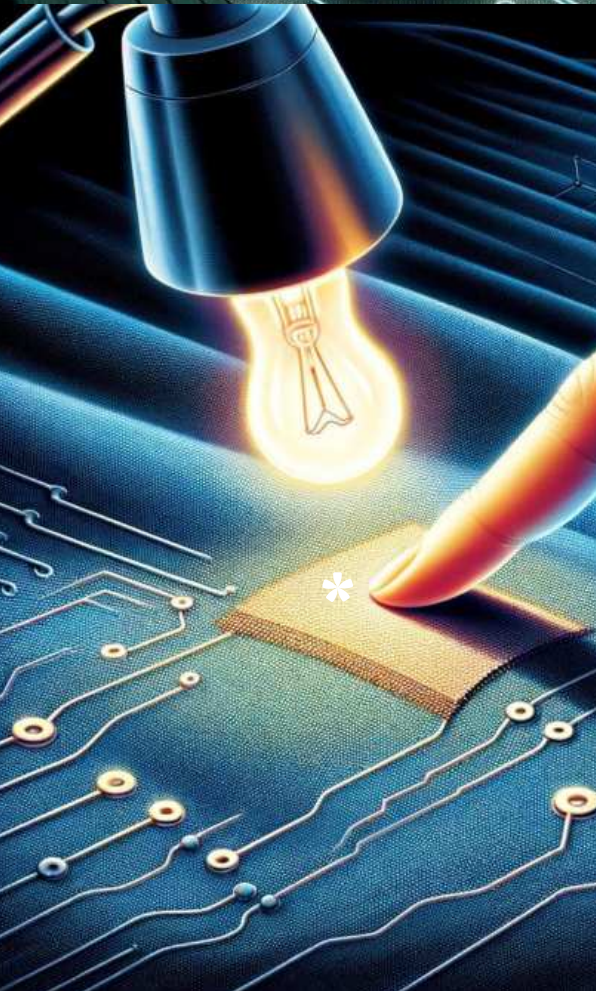

**nopma bonding®** laminates two flexible materials and allows the combination of their attributes. Different effects based on the model of an onion layer can be created by nopma bonding® laminates.

# nopma conduct<sup>®</sup> - Smart Textiles

**NOPMA**  
Technische Textilien

made  
in  
Germany

\* applications with *nopma conduct<sup>®</sup>*

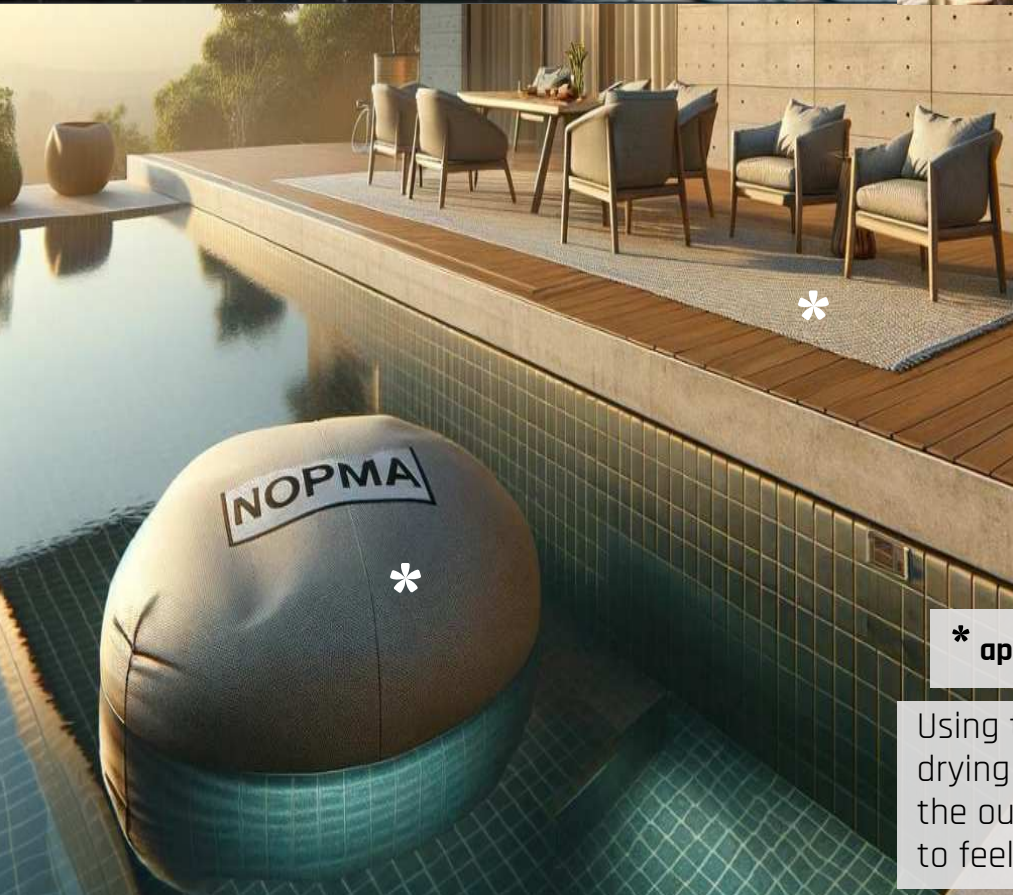

Thanks to the conductive coating **nopma conduct<sup>®</sup>**, the advantages of textile goods and electronic components can be combined on a series scale to create smart textiles.

# nopma anti-slip<sup>®</sup> outdoor

**NOPMA**  
Technische Textilien

made  
in  
Germany

\* applications with *nopma anti-slip<sup>®</sup> Outdoor*

Using the weather-resistant and quick drying coating **nopma anti-slip<sup>®</sup> outdoor**, the outdoor area is discovered as a place to feel good.
