

Our mission.

Create **fabrics**
to impress

Your partner for
textile solutions.
Made in Germany

Who we **are.**

Georg+Otto Friedrich is the leading manufacturer of knitted textiles in Europe. Our focus is on innovative fabrics for digital printing and technical textiles for industrial applications. We produce at three locations - exclusively in Germany.

As an owner-managed company with more than 70 years of experience and our own product development, we offer individual textile solutions for your requirements.

Experience and Competence

- certified according to DIN/EN ISO 9001, ISO 50002
- textiles are REACH compliant and certified according to Oeko-Tex class I (baby products) or class II (skin contact)
- production capacity of over 650 t textile per month
- own finishing and coating up to 540 cm width

Research and Development

- in-house development department for innovative textiles and customer-specific applications
- internal test laboratory for safety, quality and environmental tests

Availability and Stock

- modern and efficient machinery
- purchase of raw materials from countries with high ecological and social standards, primarily within the EU
- more than 700 articles/fabrics immediately available from stock by the piece
- large warehouse covering all production stages

Sustainability and Environment

- GOING GREEN by Friedrich covers all environmentally relevant aspects of our value chain
- continuous exhaust air and wastewater monitoring
- exclusive use of auxiliaries class WKS I (can be safely disposed in the municipal wastewater system)
- halogen-free finishing and coating line (already meets future EU requirements)
- use of post-consumer PET (exclusively EU origin)
- CO₂ compensation by supporting reforestation projects with PLANT-MY-TREE®
- member of the SEAQUAL® initiative to clean the oceans from marine litter

Textile solutions for digital printing

Direct- and transfer printing with sublimation inks |
screen printing | UV- and latex printing

Flag fabrics

From classic knitted flag fabrics for the advertising industry to dyed flag fabrics for sewing and national flags to fabrics for long durability and special effects

Frontlit and banner fabrics

Lightweight banner fabrics for hangers, as well as classic frontlit fabrics in various weight categories for framing systems up to heavy banner fabrics for special applications

Lightbox fabrics

Coated and uncoated, crease resistant, with highest colour brilliance - up to 5 m width

Block-Out fabrics

Opaque and light-proof for exhibition stand construction and frame systems, elastic or non-elastic, best runnability in printer and calender

Shiny fabrics

Shiny satin fabrics for various applications

Elastic fabrics

Different elasticities, made with and without elastomer yarns

Mesh fabrics

Very robust textiles with high air permeability and longer lifespan
