Activities

ADMANTEX2i aims to lead international cluster cooperation in advanced manufacturing and advanced textile materials as an enabler for globally competitive sustainable products functional in a broad range of high-end applications.

The project strategic cooperation vision is that digitalization is key enabler for both sectors to boost circular economy business solutions to strengthen resilience and to drive the recovery growth and the economic opportunities of European SMEs.

ADMANTEX2i strategy is to take advantage of prior European cooperation to leverage cross-sectoral innovation in advanced textile materials and manufacturing by fostering the adoption of digitalization and integrating sustainability to address different end markets with differentiated products/solutions and joint internationalization to contribute to the recovery and resilience of the sectors.

ADMANTEX2i focuses on 3 main pillars to build up internationalization opportunities:

COOPERATION
DEVELOPMENT

STRONG VALUE
PROPOSITION

INTERNATIONAL
MISSIONS

3 International
Business Missions

Cross-partnership
Webinars

Digitalization driver and
Cross-sectoral approach

Circular Economy
Business Models

Lessons in building
industrial resilience

SMEs going to business missions will receive financial support through calls for expressions of interest. It will consist of cost-reimbursement up to 1.500€ per SME per mission for travel costs and accommodation.
