Up Collection

TENCEL PRIME PU

It's the perfect combination to ensure natural and comfortable protection.
Its natural fibers and its environmentally friendly manufacturing process offer a fabric with unique properties such as extreme softness and optimal moisture management, preserving the qualities of mattresses and pillows

- Fabric of 100% natural origin - TENCEL™
- Excellent moisture management
- Body temperature regulation
- Highly absorbent
- Extremely soft, ideal for sensitive skin
- Waterproof, breathable and unnoticeable polyurethane membrane
- Barrier against mites and bed bugs
- Bi-elastic, adaptable and very comfortable
- Easy maintenance: machine washable and dryable
- Oeko-Tex Standard 100 Class 1 certified

SOFT TOUCH TENCEL SMARTCEL

This elastic, waterproof and breathable fabric is a step up from conventional quilted fabrics thanks to its qualities and easy maintenance.

Its natural-origin surface with zinc oxide (TENCEL™ SMARTCEL™ sensitive) offers extreme softness and optimal moisture management, preserving the qualities of mattresses and pillows. Zinc oxide keeps bacteria from growing on the fabric, reducing odors and caring for skin

- Surface, 100% natural origin - TENCEL™ - SMARTCEL™ SENSITIVE
- Excellent moisture management
- Body temperature regulation
- Quilting designed with a spring effect for greater comfort
- Highly absorbent
- Inhibits bacterial growth (pharmaceutical grade zinc oxide) permanently
- Reduces bad odors (pharmaceutical grade zinc oxide) permanently
- Waterproof and breathable polyurethane membrane
- Adaptable and unnoticeable
- Barrier against mites and bed bugs
- Easy maintenance: machine washable and dryable
- Oeko-Tex Standard 100 Class 1 certified
