

Hook & Loop Solutions for the Construction market

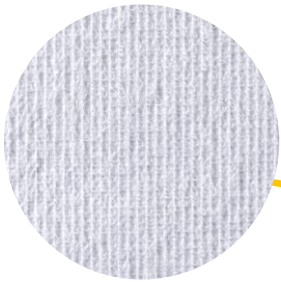

Quick & easy

Modular concept

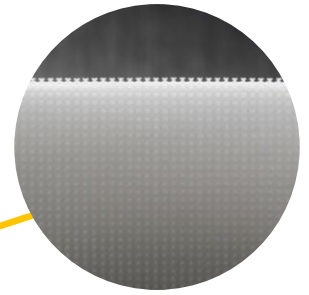

Zero glue needed

Discover a quick and easy solution to affix wall coverings and flooring without glue !

This ultra thin hook & loop solution which eliminates the use of adhesive, screws or staples exhibits astonishing performances.

Knit loop laminated to the back of the flooring or wall covering

Gripping element with self-adhesive applied on the wall or on the floor

Wall coverings & flooring installation

Unlike other traditional fastening systems, DecoGrip by Aplix® is a **unique modular solution** to firstly install and easily renew any type of coverings such as ceramic tiles, decorative panels or carpet.

The **low-profile** micro-hook tape is applied on the wall or on the floor, while the loop is integrated on the back of the coverings. A **light pressure** enables to achieve a **secure bonding** of the coverings.
