

Since 1893 we have been creating and manufacturing a complete collection of ribbons, straps and cords for making, packaging and decoration. We weave in our workshop all types of ribbon, strap, standard elastic and/ or customized. Our know-how focuses on a complete range of quality materials: cotton, polyester, polyamide, polypropylene, viscose, kevlar, glass fibres, etc. We collaborate with major brands to create tailor-made, co-design products that meet specific needs.
