ABOUT US

CNM textil deals with bleaching, dyeing, printing and other special finishings of woven fabrics – cotton, linen (flax), polyester including mixtures of the fibres. Our company owns a production mill located in OSKAVA, in north of Moravia. CNM textil owns many certificates which declare ecological production of the mill and certify use of fabrics for hospitals and for children up to 3 years of age. There are international certificates (Oeko-Tex from Wien Test Laboratory) as well as czech certificates (State Textile Testing Institute BRNO).

CERTIFICATIONS

EQUIPMENT OF THE FINISHING MILL OSKAVA MAIN MACHINERY

Maximum width for dyeing 180 cm (71")
