MSD HISTORY

PVC WEAR LAYER

Specifications/

Max width 4.2m, Softness 0~40PHR, Thickness 0.07~0.70mm

Main features:

- > extreme wear resistance
- > fire retardant
- > Stain resistance
- > corrosion resistance
- > waterproof

Applications/

- > wallboard
- > Loose Lay flooring
- > WPC flooring
- > Dry back flooring
- > Magnetic LVT flooring
- > Peel&stick flooring
- > LVT Click flooring
- > SPC flooring
- > RSVP flooring etc

FURNITURE FILM

Specifications/

Max width 2.10m, Softness 0~22PHR, Thickness 0.05~0.18mm

Main features/

- > Perfect flattening
- > Easy printing

Applications/

Various composite furniture, printable layer of Artificial floor

PVC DROP STITCH FABRIC (DWF)

Main features/

- > Supreme air-tightness
- > Saltwater resistance
- > Durability
- > endure high pressure
- > High tensile, tearing and adhesion strength
- > Anti-mildew and anti-fungal treatment
- > Yarn height being available from 5cm to 50cm

Applications/

- > Inflatable boat bottom
- > Air track
- > SUP
- > sport mattress
- > Inflatable screens etc

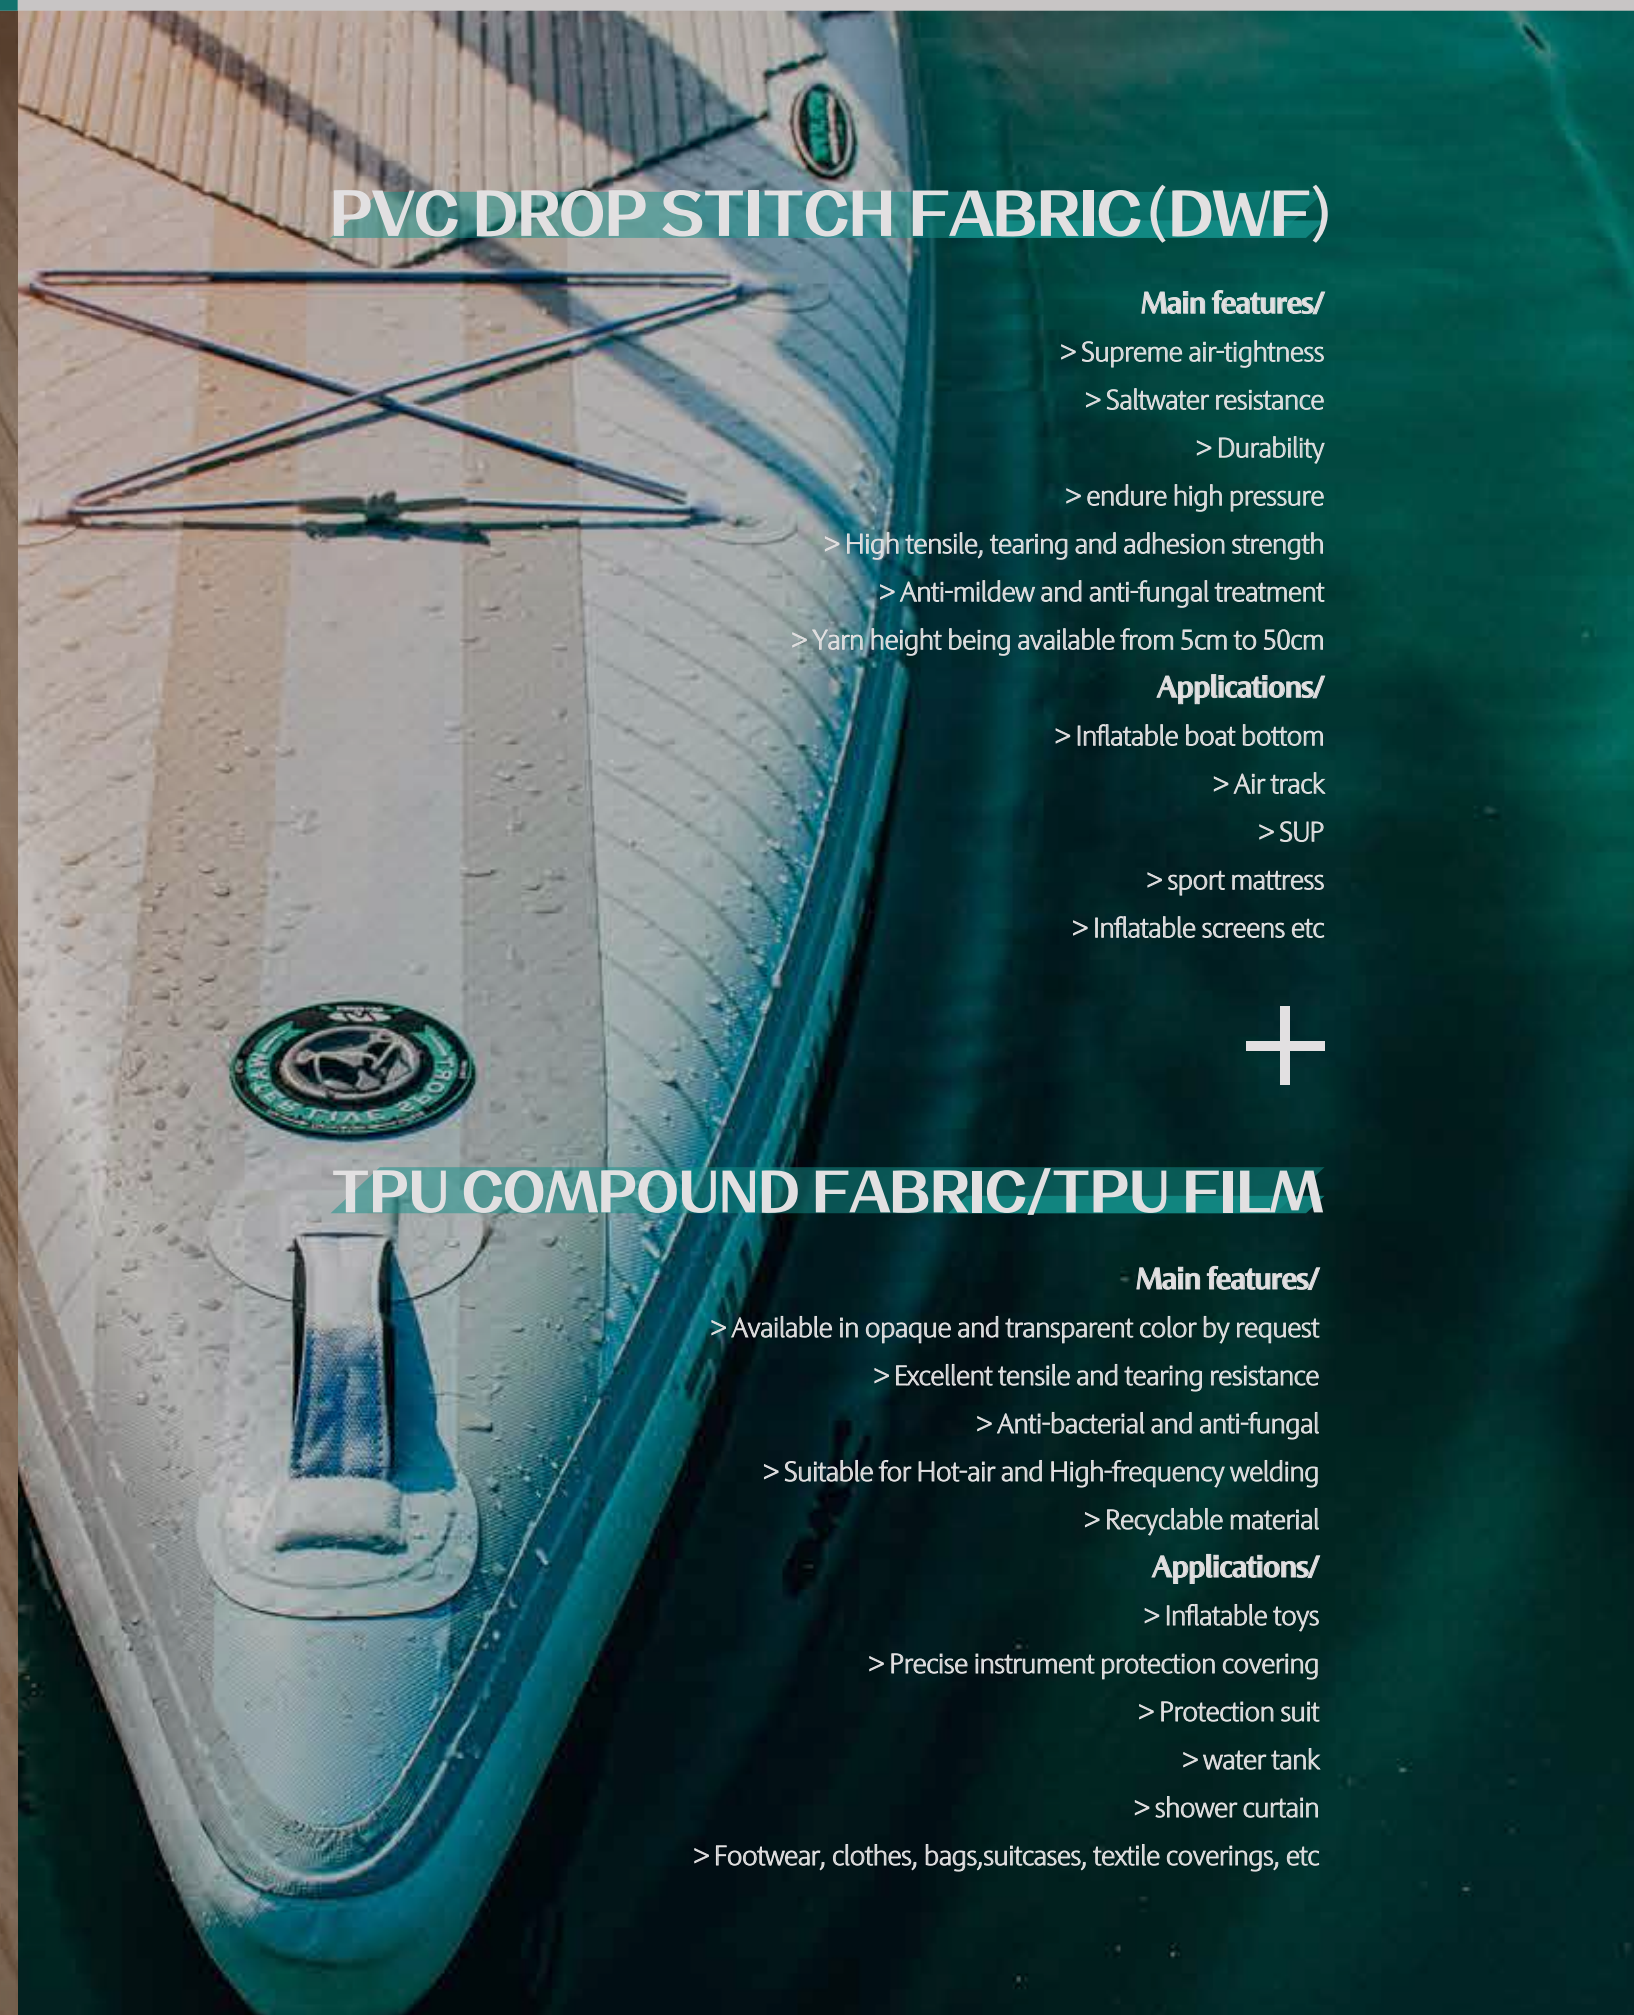

TPU COMPOUND FABRIC/TPU FILM

Main features/

- > Available in opaque and transparent color by request
- > Excellent tensile and tearing resistance
- > Anti-bacterial and anti-fungal
- > Suitable for Hot-air and High-frequency welding
- > Recyclable material

Applications/

- > Inflatable toys
- > Precise instrument protection covering
- > Protection suit
- > water tank
- > shower curtain
- > Footwear, clothes, bags, suitcases, textile coverings, etc

SEAMLESS ARTISTIC WALLCLOTH

Brand name “Yeshome”

Main features/

- > width 2.8m (no joint on the whole wall)
- > Eco-friendly
- > Nanotechnology
- > Anti-static
- > Denoise
- > Antibacterial
- > Mould proof
- > Easy cleaning
- > Scratch resistance
- > Fire retardant

PVC CEILING STRETCH FILM

Main features/

- > 200 colors available
- > Thickness:0.18mm,0.22mm
- > Width:1.5~5.0m
- > Interior ceiling decoration materials,
widely used in Russia and surrounding countries, Russia market share of 80-90%.

PETG FILM

Products Specification: high gloss PETG film\soft touch PETG film

Main features/

- > fingerprint free
- > raw material is in food grade, nature and no toxic
- > raw material is recyclable and reuse, circular economy
- > fire-resistance, eco-friendly, non-toxic after burned
- > stable performance, formaldehyde-free, VOC free
- > wear resistance, corrosion resistance, easy cleaning, prolonging service life
- > plastic in place of wood, reduce use of wood to protect forest
- > beautiful low porosity surface, easy cleaning and disinfect.

Application/

- > furniture protection layer

PVC FLEX BANNER

(Coated or laminated)

Frontlit

Backlit

Blockout

Translucent film

Mesh
