About Us

A specialized felt production unit - SFG is an leading Indian manufacturer of Wool Felt, Synthetic Felt, Geotextiles and Air Filter Media that produces nonwovens and custom cut parts in India & Overseas. We have a large facility in Tamilnadu with several high speed felt manufacturing machines from the fibre stage and also the presses, laminating machines, rewinders, slitters and several other specialized converting machines.

SFG promoters have been market leaders since 1980 and pioneers of many innovations in the field of industrial nonwovens.

We serve over a 100 industries and have a loyal base of over 800 customers. Known for ability to customise to the requirement of our customers without compromising on quality, we rank as one of the most prominent enterprises engaged in the production of a variety of felt rolls, sheets, cut components, wheels and buffing mounts. On the continuous path of progress, quality management systems as per international standards like ASTM, SAE, DIN & BSI applies to our products as well as processes.

Polishing Wool Disc Grooved Roller

Pre-assembled 100% wool cloth grooved disc roller in green colour, used in tanneries on polishing machines.

These wool rollers enable to polish the leathers (suitable for clothing leathers) with a high performance.

Grooved Wool Felt Disc Roller in white colour, used to get a semi-glossy effect on special leathers.

Specifications

The roller can be assembled on the shaft and supplied to you. The rollers are available with different holes, suitable for every kind of polishing machines
