# T9 SHIELD HEAVY DUTY

T-series metal component is future design and business operation of Trimmers. T9\_Shield series is one of unique and premium metallic products by machining of 7000 series aircraft aluminum. Chamfering side edge is most unique design of T9 series.

## T9\_SHIELD\_HEAVY DUTY

Trimmers designed it for application of Military, Hunting and Safety products by assurance of such industry standard. Liquid spraying coating and HARD anodizing are available for T9\_Shield\_HD series only.

# T9\_SHIELD\_UNIVERSAL

Chamfering design is unique for Shield series. It could be applied through fashion, garment and outdoor industry Mono-color of body, slot and lever could provide different design direction at fusion industrial circumstance.

## T9\_SHIELD\_G10

The G10 Buckle – A different version of T9 Shield Buckle is made with high-pressure fiberglass laminate material, G-10.

Sharing some DNA with its cousin carbon fiber, shows similar traits such as lightweight and high strength. It is made with multi-layers of glass cloth and epoxy resin – making it 33% lighter than aluminum T9 buckle which is already considered lightweight, while still holding its tensile strength around 160 kgf. The unique texture on surface makes it stand out even more among other buckles.

### EACH BUCKLE HAS ITS OWN UNIQUE COLOR

- ▶ High-pressure fiberglass laminate material
- ▶ Laser etched private logo is available
