

Pioneering PTFE Materials for **40** Years

Established in **1983** as LINGQIAO E.P.E.W. (LH)

2 production bases covering **100,000** m²

350 strong team

7 representatives across multiple continents

Annual supply of **3500+** tons of PTFE products to diverse industries worldwide

COMPANY DEVELOPMENT

1983, LH was founded to produce dust collectors.

1995, laminate PTFE membrane onto various filter media.

2005, Shanghai JINYOU Fluorine Materials Co., Ltd. was founded.

2010, shifted focus from dust collectors to PTFE-related products.

2015, towards zero-emission of PM2.5.

2022, Developed PTFE membranes for electronics under 100m water.

JINYOU

Cable Film in Age of AI Parallel Cables

Technical Data

Density	0.75g/cm ³	
Thickness	50μm	80μm
Length	6000m	4000m
Width	130mm	130mm
Tensile Strength	35MPa	50MPa

Cable Film

ePTFE Film
0.7 g/cm³

- Application:**
- Rader
 - Microwave

Unsintered PTFE Tape
1.6 g/cm³

- Application:**
- Aerospace
 - Aviation

PTFE Dust-free flexible drag chain-pod Series products

1.2 mm

Thickness

TPU+ PTFE

Material

5 million +-

Fatigue strength

*Products can be customized according to customer requirements.
