ORIGIN BY NATURE

GREEVO

GREEN OIL TO GREEN LIFE

GREEVO

Plant-derived oil ingredients extracted from Avocado

GREEVO® contains natural oil ingredients, including OLEIC acid - excellent for moisturizing power, PALMITOLEIC acid - which keeps skin healthy from within, and Vitamin E - effective for aging care.

GREEVO +

Addition of antioxidant (Zn) ingredient to GREEVO

The antioxidant and deodorizing effects of zinc oxide strengthen antibacterial properties, and provide both UV protection, skin soothing benefits, safety and nice feeling.

PRODUCT

- 
MASTER BATCH PELLET
 Plastic Injection product, Pellet for Fiber
- 
Filament YARN
 • Polyester
 • N / P Composite yarn
 SPEC : 50d/72f, 75d/72f, 150d/144f
 METHOD: FDY, DTY
- 
FIBER, STAPLE
 (Recycling Available)
 For Filler & spun yarn
- 
FABRIC
 Knitted, Woven, for Garments, Beddings and Sports-gear
- 
END PRODUCT
 OEM, ODM Available

How do fatty acid oils kill bacteria? The power of fatty acids in avocado oil

Q&A

A natural antibacterial solution

Plant-based oils such as coconut, olive, and avocado oil are safe for humans but fatal to bacteria.

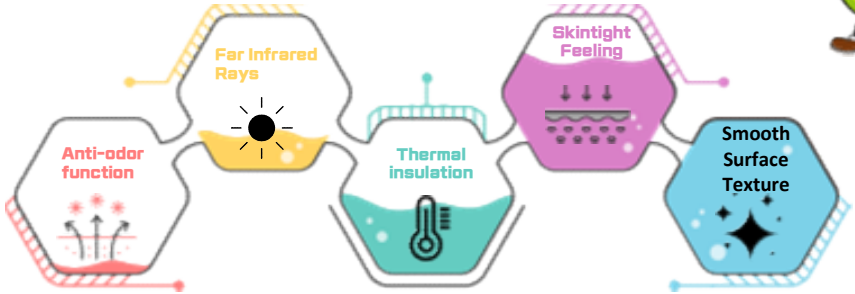

Penetrate, Break, and Kill!

Bacteria are protected by a lipid (fat) membrane. Fatty acids penetrate this membrane and break it down, causing the contents to leak out. As a result, energy production becomes impossible and the cells lose function and die on their own.

What does Greevo have other functions?

Q&A

Purchase Inquiries

We can customize all production types to you.

- From Master Batch to End product
- From small quantity sample to mass production
- ODM / Supporting Brand Collaboration
