

buttonfuse[®] revolver

Automatic Button Shank Wrapping Machine

buttonfuse[®] technology since 1994

Our revolutionary continuous button feed technology is right here!

buttonfuse[®] revolver

Automatically wraps whilst operator feeds the machine

Maximum efficiency & consistency

- saves time & waste
- no chance of operator error
- ideal for mass production!

Productivity savings as operator only required for loading

The high quality, fusible elastic core **guarantees button security** for the lifetime of the garment

From multi button security, a portable mini or our original classic, there is a buttonfuse[®] machine for any job, any size to suit any budget!

Our innovative fusing technology ensures complete protection against button loss for the lifetime of any garment.

The fusible elastic core makes buttonfuse® TF thread super strong!

Proven & specified by the major brands of the world.

We have the world's largest range of threads + our high stockholding levels mean that they are readily available exactly when you need them most!

Our thread is the ideal partner to the buttonfuse range of machines. The high quality components guarantee button security from shirts to raincoats.

Manufactured to be 100% consistent to ensure a perfect shank appearance with a soft finish. A fusible & highly elastic core makes buttons secure & super strong with no loose ends.

Our thread has been tested to withstand the rigours over the lifetime of the garment. It is certified by Oeko-Tex & complies with all other industry standards.
