Daily Wear Apparel

From T-shirts and hoodies to sweatshirts and jerseys, DTG technology brings them vivid colors, a soft texture, and long-lasting designs. Whether it's a full-back print, pocket logo, custom name, or sleeve design — all can be easily achieved.

Other Apparel and Accessories

Customize handbags, aprons, hats, and even badges to add a unique touch to everyday items. Whether for personal projects or themed gifts, DTG adheres beautifully to materials like canvas, cotton, and denim.

Coordinated Sets & Team Styles

Easily bulk-print team apparel with multiple elements like names, logos, or themed graphics. Perfect for activities like family vacations, birthday parties, team uniforms, or festive occasions.

The All-New DTG-2513D: Enhanced Performance Upgraded Functionality

New four-color fluorescent ink set expands the color gamut range and makes your prints more vivid and colorful.

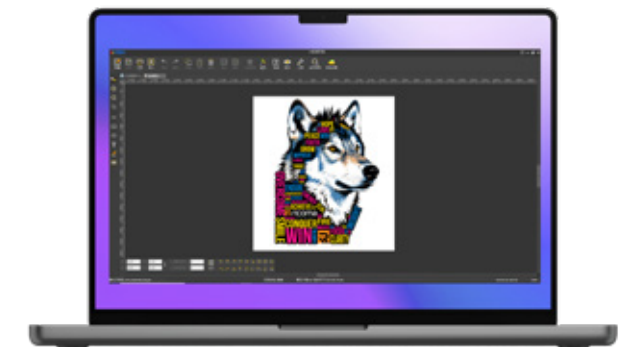

Positioning Device (optional)
boasts the tactile texture of embroidery combined with the vivid colors of DTG printing.

Heat Press: HP-1620F-DTG (optional)
The HP-1620F-DTG heat press now features an optional silicone sponge pad with enhanced breathability, ensuring garment flattening during pressing.

Pre-treatment machine (optional)
To achieve optimal ink printing results on T-shirt fabrics, Proper pre-treatment of garments is essential for optimal ink adhesion and wash fastness. Without it, ink may penetrate and spread into the fabric, compromising the color base and reducing color fastness.

RIIN & HOSONSOFT Software
RIIN and HOSONSOFT software work together to streamline your DTG workflow. Adjust colors, layout, and resolution with ease, then manage your print jobs smoothly for accurate, high-quality results.
