Printing Speed	4 pass 15 m ² /h ; 6 pass 9.5m ² /h ; 8 pass 7 m ² /h
Temperature and Humidity	18°C-28°C/59°F-86°F , 35%-65%
Voltage and Current	PSF-24-02A:50HZ 220V 15A PTA-24-02A:220V 20A
Net Weight	PSF-24-02A: 154kg PTA-24-02A: 180kg
Gross Weight	PSF-24-02A: 205kg PTA-24-02A: 230kg
Machine Size	PSF-24-02A: 1336 X 658 X 1400(mm) PTA-24-02A: 1620 X 912 X 992(mm)
Packing Size	PSF-24-02A:1480x1020 x 731(mm) PTA-24-02A:1420x 1120x 1113(mm)

RICOMA REVEL INK

The super refined Revel Ink is produced with the cutting-edge microfiltration technology, which makes the size of ink droplet particles less than $0.2\mu\text{m}$, preventing nozzle clogging and uneven spraying. Ensures smooth and even printing experience every time.

Brighter, more vibrant, and more saturated colors are the main features that make Revel Ink stand out. Its high color fastness ensures that your prints will be reliable and lasting for years to come.

The environmentally-friendly Revel Ink will take your printing game to the next level! Revel Ink is made with only the best color resin raw materials, ensuring high concentration and unbeatable color quality. It is verified by ISO9001R quality control system and compliant with environmental protection system. Revel Ink is the best choice for your printing needs.

REVEL THERMOPLASTIC POWDER

Environmentally friendly, strong adhesive after hot stamping, and resistant to high-temperature water washing without fading. Increases adhesion and effectively improves the firmness of the pattern after hot stamping.

REVEL HEAT TRANSFER FILM

This special $70\mu\text{m}$ PET Revel film can be torn off on either side. It is made with acrylic and synthetic resin materials, and it offers good transfer stability, and allows high success rate. It locks inks nice and tight, keeps your images in shape constantly, and brighten the colors of your work.

MULTI-PURPOSE PURIFICATION SYSTEM

Comes with a multi-purpose purifier that not only filters out more than 99% of harmful substances in the air, but also catches the vaporized oil and fluid within the air, to ensure that you work in a fresh and safe environment.

FLAT HEAT PRESS MACHINE

Transfer the patterns printed by DTF machine onto fabrics using a flat heat press machine. With a 5-inch LCD touchscreen and user-friendly interface you can easily set temperature, track production output and print fashionable works efficiently.
