

# MAKE BELT HANDLING EASIER, SAFER, AND FASTER

## **Intralox FoodSafe MPB Tools and Components**

Using the wrong tools—or no tools—on your conveyor belts during maintenance or sanitation tasks can waste time, risk damage, and introduce foreign material to your product stream.

The Intralox® FoodSafe™ Modular Plastic Belting (MPB) Portfolio includes a suite of cost-effective tools and components designed and engineered specifically to enable quick, easy, and safe belt handling:

- **Intralox Clean Release**
- **Intralox Rod Remover**
- **Intralox Belt Puller**

## INTRALOX CLEAN RELEASE

Facilitates quick, easy, tool-free removal and installation of S800 Heavy-Duty Edge belts

## INTRALOX ROD REMOVER

Allows you to easily remove or insert belt rods without causing damage

## INTRALOX BELT PULLER

Enables simpler, faster, and safer belt installation and removal in a solid metal, handheld tool
