T A K E - O F F

FOOD SAFE

Foreign Object reduction
due to integrated wing.

EASY TO USE

Pipe loads directly
over filling nozzle
without removal
of stoppers.

FULLY RECYCLABLE

Pipe and wing made of
fully recyclable material.

EFFICIENT

Reduced handling
resulting in more
efficiency and speed.

INTRODUCING

SPEEDPIPE®

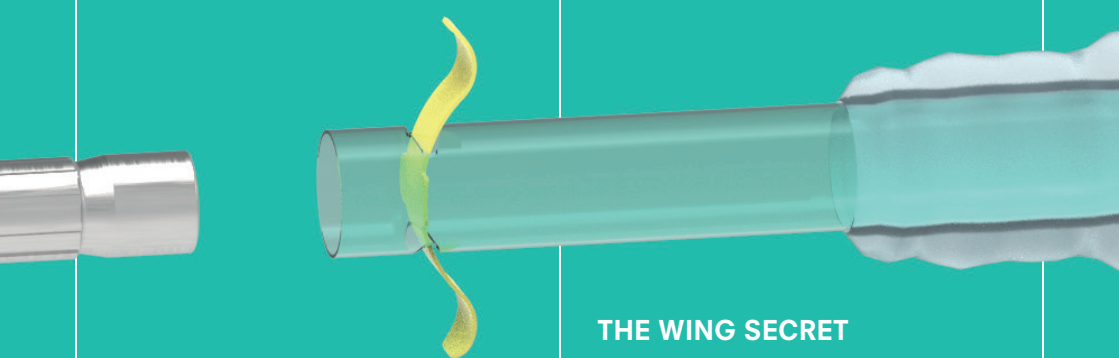

Van Hessen is a leading global supplier for sausage makers all over the world. What Van Hessen brings to this traditional handcraft is innovation focused on quality, efficiency and hygiene. This is why Van Hessen is always driven to innovate and improve. And with the Speedpipe we do! The Speedpipe is a food-safer product that ensures greater efficiency and speed, while meeting all quality requirements. Van Hessen makes the Speedpipe available for no additional costs.

THE NEXT STEP IN FOOD SAFETY

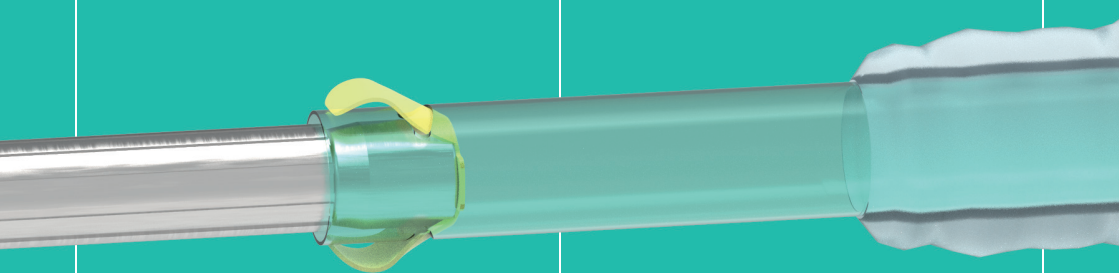

With the traditional pipe there was always a chance of loose objects finding their way into the food, because the casings were simply held in place by two loose rubber stoppers. Not only that. The stoppers also had to be removed manually.

With the Speedpipe this problem is gone! The integrated wing keeps the casings in place. It is possible to slide the pipe over the filling nozzle with just one hand. The filling nozzle forces the wing into the pipe, thus making it possible to create anyone's favorite high-quality sausage in no time.

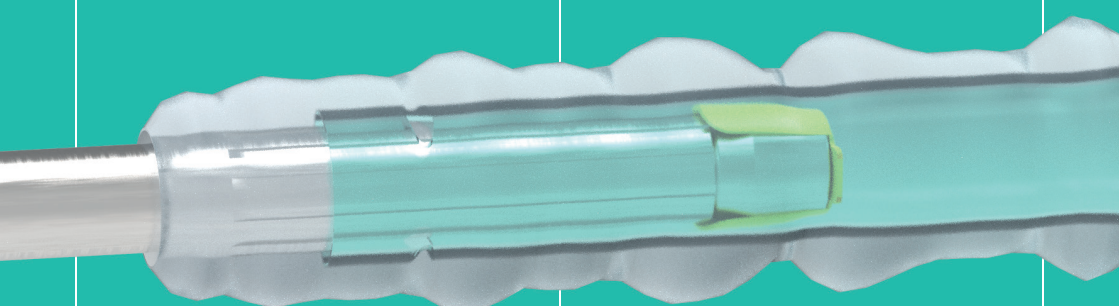

THE WING SECRET

Our patented wing keeps the natural casings secured on top of the Speedpipe during transport and pre-soaking.

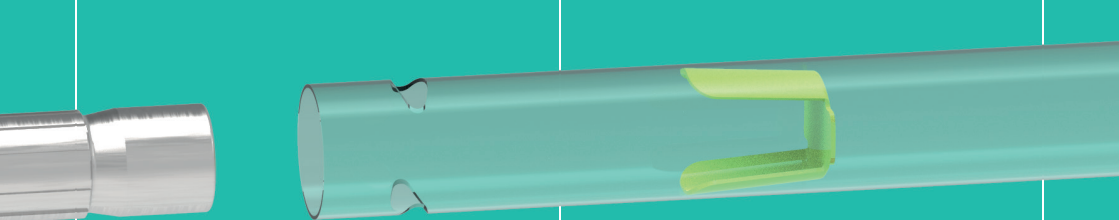

EASY DOES IT

It takes only one simple action to slide the Speedpipe over the filling nozzle. The filling process has never been this easy or fast.

NO EXTRA ACTIONS REQUIRED

The filling nozzle forces the wing into the Speedpipe where it remains while the natural casing easily slides over the nozzle.

NO MORE LOOSE OBJECTS

When the Speedpipe is removed from the filling nozzle, the wing remains fixed in the Speedpipe without any risk of loose parts.

TRY IT YOURSELF

Feeling excited like we do? Or are you still a little skeptical? No problem! We'd love to stop by to give you a full demonstration of the Van Hessen Speedpipe. Simply make an appointment with your sales contact and we'll gladly let you experience the ease and efficiency of the Speedpipe.

If you don't think you need any further introduction, however, you can simply indicate your interest in using the Van Hessen Speedpipe on your next order. A sales representative will then contact you so you too can benefit from all its advantages without extra costs.

IF YOU HAVE ANY QUESTIONS

Our sales representatives are more than happy to answer your questions and to demonstrate the superior quality of the new Van Hessen Speedpipe.
