APPLICATIONS

- ◆ Meat products
- ◆ Potato products
- ◆ Cheese products

VACUUM DOLAV BAGS

The vacuum dolav bag extends the shelf life of your fresh product in bulk during transport and storage. The MAP process of packaging bulk products extends the shelf life of your product.

An unique concept

Oerlemans Packaging can supply these dolav bags on a roll, which ensures optimal food safety and hygiene. Vacuum dolav bags are also available with corner seal to prevent moisture and residual product in the bag. Food safety is also guaranteed after sealing the bags using a bulk vacuum machine.

Guarantee food safety

**Extension of shelf life
for less food waste**

**Longer intermediate
storage possible**
