

oerlemans packaging group
the **sustainable** innovator

APPLICATIONS

- ◆ Sliced meat
- ◆ Cheese
- ◆ Pastry

PP SHEETS

Enhances hygienic use

Excellent protection

Support food safety protocols

The sheets will enhance a hygienic use of your products. This will support food safety protocols.

The sheets will also add additional protection to the product inside. On demand the sheets can be delivered in every possible size.

To increase convenience, it is possible to provide the sheets with a hotneedle, macro or laser perforation. As a result, the sheets can be easily separated from each other.
