**VOSS**  
Thermal Processes

**Notes:** All information is based on mathematical calculations. In the case of full water autoclaves, calculations were carried out without intermediate layers.  
In the case of cascading autoclaves, 3mm thick intermediate layers were used. Calculation taking into account a 1mm tolerance in the diameter of the packaging.  
The construction of individual autoclave baskets is possible on request.

| Packaging        | Dimensions           | Content<br>(ca.) | PRAKTIK 160 |     | SOLID 260 |     | NOVUM 390 |      | NOVUM 520 |      |
