

Making the impossible packable...

Petfood industry solutions

CPS is since 1988 the specialist in case packing. Especially flexible bags in American style cases and shelf-ready trays, but also all type of trays, skin trays in cardboard trays, plastic crates up to roller containers. No challenge is too crazy for us! Due to our unique, modular systems and the resolving power of our team, we know how to pack the impossible. Our case packers have many option available to create a tailor made case packer for you. We are only satisfied if you are a satisfied customer.

CPS CASE
PACKING
SYSTEMS

The Petfood market is characterized by many variants in food and packaging. Shelf displaying is very important in this market. Our high-quality case packer systems comply in standard terms of quality, performance and safety, which your product deserves. Our knowledge, experience and dedication ensure that your product is packed efficiently, displayed perfectly with cost reduction.
