

## Schur®Star Flavour Bag

The Schur®Star Flavour Bag is a unique opportunity to provide a healthy meal in line with today's lifestyle – 6-8 minutes from microwave to dinner table

- The Schur®Star Flavour Bag is a patented and automatically packed dual chamber bag, produced for use in the microwave and allowing completion of ready-made meals in one step
- By utilizing the flavour release chamber the content is cured and spiced during cooking
- The top compartment holds seasoning like butter pat, spice mix, or marinade, the bottom compartment the main product to be cooked in the microwave
- During preparation, the steam will open the compartments and the top seasoning will mix with the main product in the bottom compartment.
- The unique combination of material, ventilation, steam-strip and zipper construction makes the separate compartments pop into one compartment, at the exact time during the microwaving process
- When prepared traditionally, valuable minerals and vitamins are lost with the boiling water, but this gentle method retains the nutrients in the bag
- From an environmental point of view the Schur®Star Flavour Bag utilizes approx. 60% less packaging than typical microwavable solutions using PET trays

DUAL COMPARTMENT

A. Spice compartment B. Product compartment

## Schur®Star Flavour Bag

- A characteristic advantage of the Schur®Star Packaging Machine is the large fill opening, easing the packing process, no matter whether manual, semi or fully automatic
- The length of the filling line makes it possible to work with multiple filling stations, resulting in increased production capacity, despite the product being delicate or difficult to handle
- A thermal transfer printer can be integrated to add a sell by date, product data, or other important information

## Why Schur®Star?

### Bagging technology made simple

- The full-scale solution
- High filling capacity
- Gas flush
- Multiple filling positions
- Multiple index filling
- Variable footprint

## Why the Schur®Star Concept?

The Schur®Star Concept consists of the Schur®Star Packaging Machine and the premade Schur®Star Bags

- The most flexible solution available
- It is all about adding flexibility to and removing complexity from our customer's production
- Run multiple bag formats without additional tooling cost
- Quick change-over to run multiple products on one line
- For manual, semi, and fully automatic filling
- Easy to integrate into your existing process
- No set-up times
