

# The Guardian Skinner

Zero accidents. Maximum productivity.

## The world’s safest skinner

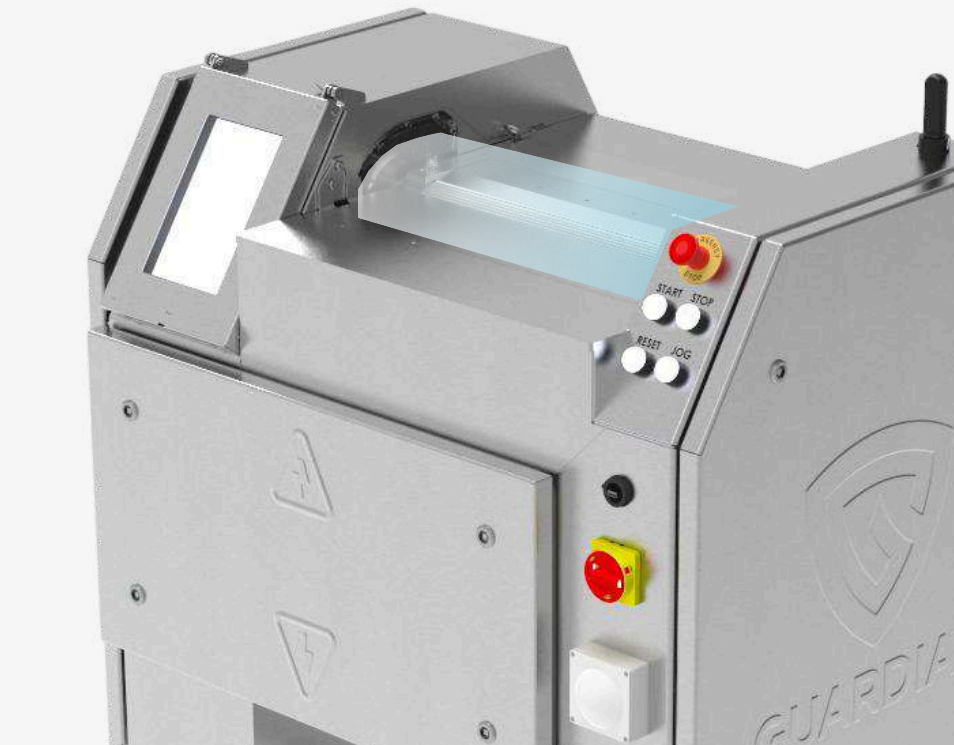

The Guardian Skinner combines 3D Vision Technology and contact sensing to keep your operators safe. Thanks to superior brake systems, the Guardian Skinner also stops six times faster than other safety skimmers.

## A perfect blend of speed and precision

In addition to cutting accidents to zero, the Skinner delivers market-leading productivity gains. Our customers report up to 5% higher yield and can cut 37% faster, leading to more throughput with greater accuracy - an unstoppable force.

### 3D Vision Technology™

Two cameras detect the operator gloves and stop the roller within milliseconds.

Up to

5%  
higher yield

Compared to leading skimmer brands.

Up to

37%  
faster cutting

Without sacrificing quality or safety.

### The Guardian Portal

Access safety & maintenance guides from anywhere. Review safety and productivity data for all your machines.

## Features

### Superior safety

- ✓ Vision & contact sensing
- ✓ Industry-leading stopping time
- ✓ Instant visual feedback for operators

### Operational enhancements

- ✓ Tool-free blade changes
- ✓ Easy to clean
- ✓ Extreme cutting accuracy
- ✓ High-speed feed rollers
