

Thermoplastic Belts

ELAClean®

Elatech®
Technology in Motion.

For applications with direct food contact,
where the highest standards in food compliance are required.

ELAClean® is a new range of thermoplastic Polyurethane belts made by ELATECH, designed mainly for FOOD industry where the highest hygiene standards are required. This new product line, consisting of several versions and designs, is able to support different types of applications, ensuring the necessary quality standards.

ELAClean® technology combines flat, and positive driven feature, without cords. ELAClean® easy-to-clean surface reduces the risk of microbial contamination.

FOOD CONTACT APPROVED

Application fields: _____

DAIRY

MEAT

POULTRY

SNACK

FRUIT

VEGETABLE

SEAFOOD

FISH

ECW - P1 without cords

ECW - P2 without cords

ECW - C4 without cords

ECW - F3 without cords

General characteristics - TPU 95 Sh.A

Belt TYPE [Code]	A - PITCH	C - OVERALL BELT THICKNESS	STANDARD WIDTH	CORD TYPE	WORKING TEMPERATURE	STANDARD COLOUR	STANDARD ROLL LENGTH
ECW - P1N	26 mm	6,30 mm	1800 mm	NO CORDS	-30 °C up to +80°C	Sky Blue	60 m
ECW - P2N	50 mm	8,60 mm	1800 mm				60 m
ECW - C4N	39,7 mm	10,50 mm	1524 mm				60 m
ECW - F3N	-	3,00 mm	1800 mm				100 m

Surface finishing

- No-Cling surface
- Glossy surface
- Matte surface

Main Features

- Possibility of easy and effective clean-in-place process (CIP)
- Urethane material compatible with wash down environments
- No fragmenting or chipping, compared with modular belts
- Environmental sustainability thanks to the reduction of cleaning labour, energy and water usage
- Reduced maintenance and sanitation costs and reduced downtime
- Sprockets compatibility: drop-in replacement for most thermoplastic belts in the market
- Ideal for replacement of plastic modular belts
- Longer belt life due to minimal belt stretch

Custom belt design

Customize the belt with the most suitable configuration according to your application needs.
