Chapter 02

What we do

alco in numbers

alco was able to increase its **revenue from sales by 82%** within the past 5 years, which shows the popularity of food machines made by alco.

Our freezer measures approximately 10 meters in width, length and height (including housing) - equivalent to a **small one-family home**.

From Buenos Aires to Taiwan: Being able to give you expert advice is important for us – you can reach us in **70 countries** across the world.

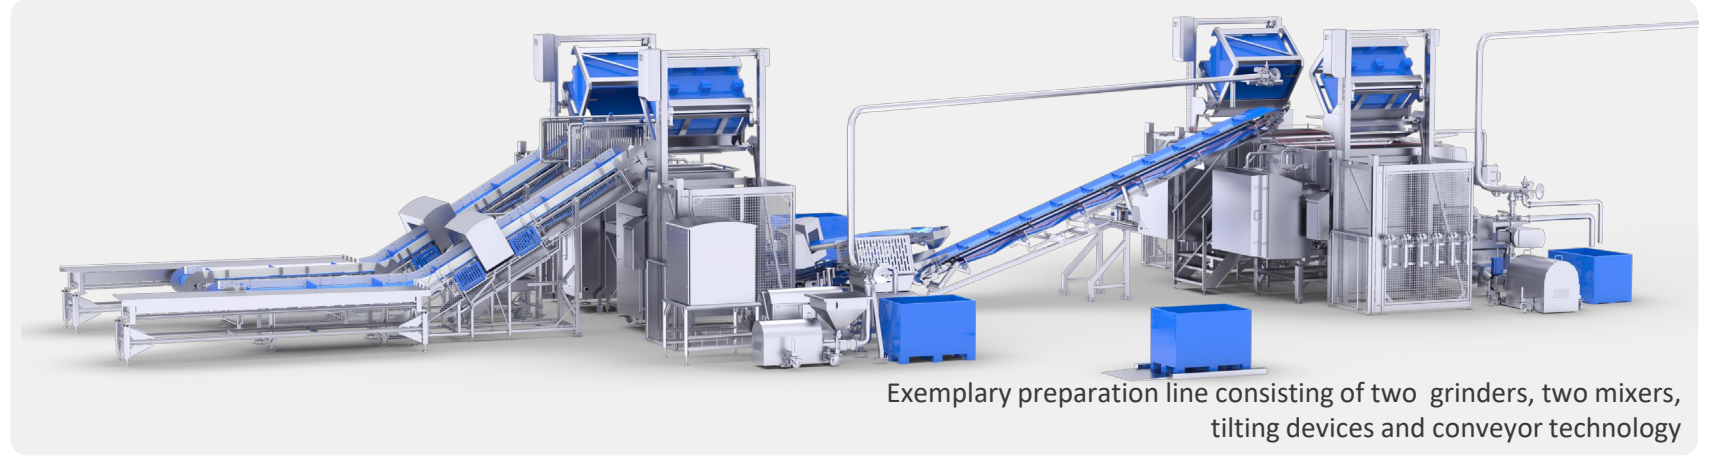

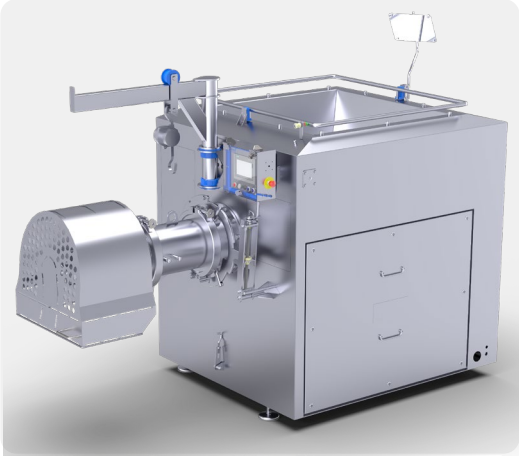

Also in terms of quantity, we are doing great: We are processing up to **5 tons of chicken nuggets per hour** in our spiral oven.

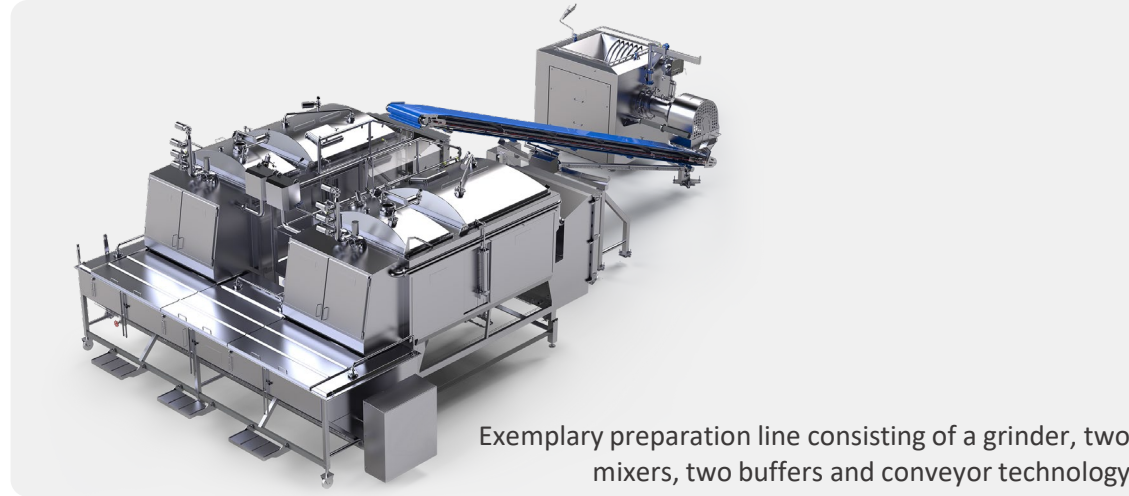

Professionally processing almost all kinds of food

Product Preparation Systems

Exemplary preparation line consisting of two grinders, two mixers, tilting devices and conveyor technology

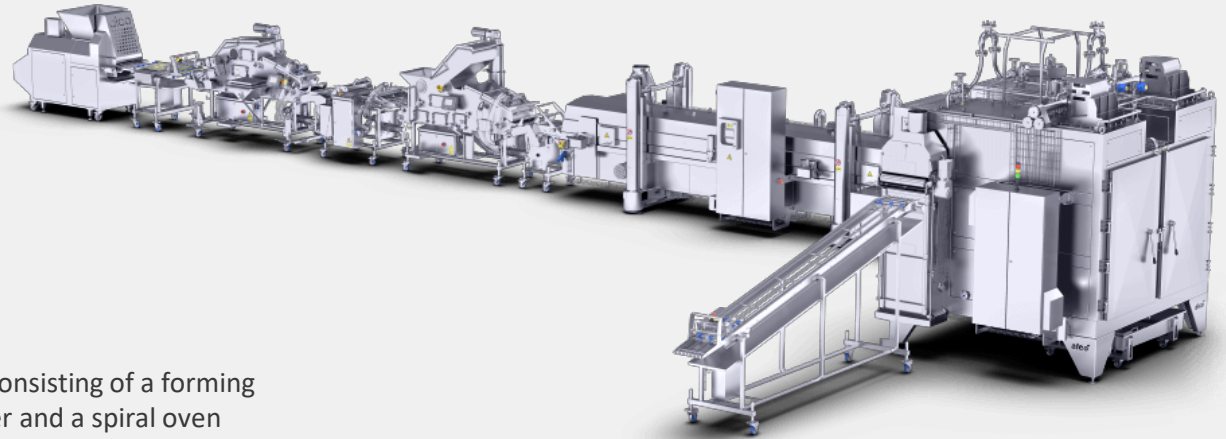

Exemplary preparation line consisting of a grinder, two mixers, two buffers and conveyor technology

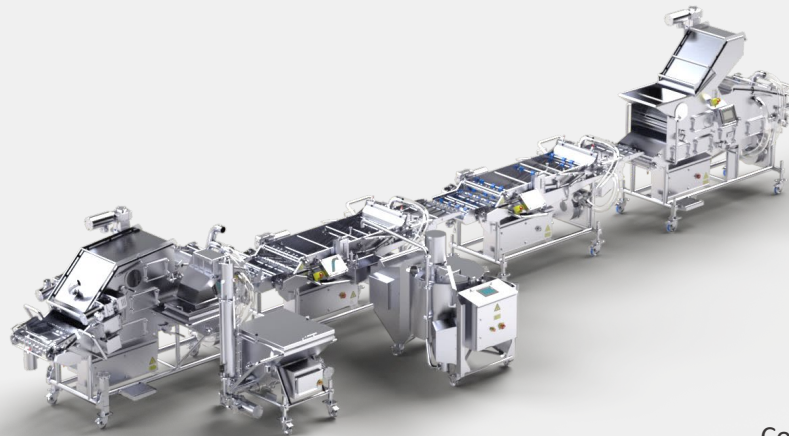

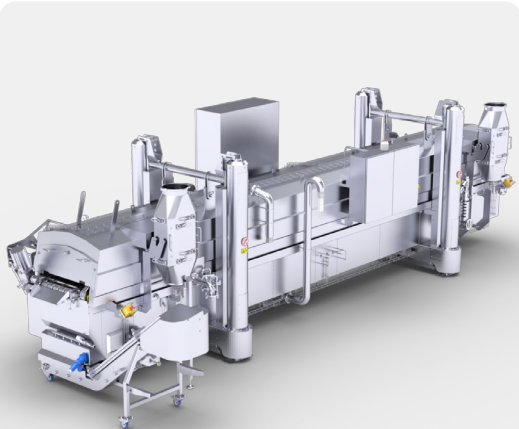

Z-shaped conveyor

Further Processing Systems

Exemplary convenience line consisting of a forming machine, a coating line, a fryer and a spiral oven

Coating line with accessories for automated (re)filling

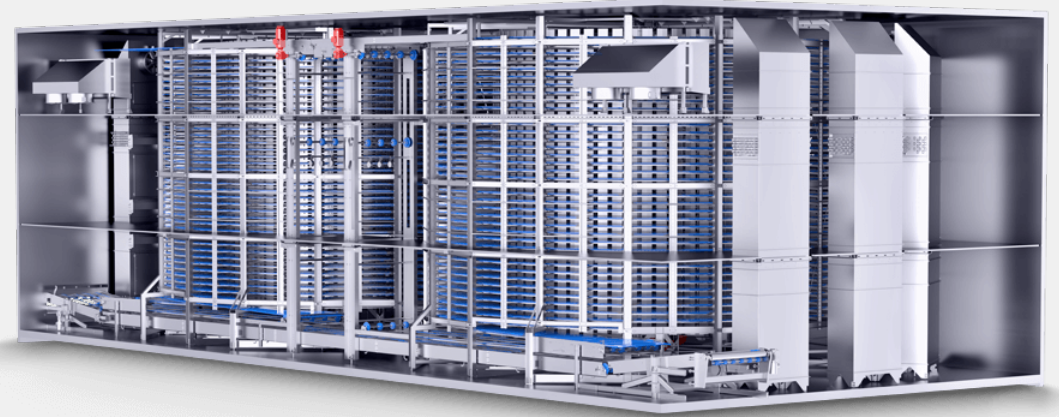

Flattening machine

Spiral Systems

Spiral oven PRO and TWIN PRO

Proofer

Spiral freezer

Pasteurization line

Chapter 04

Food Technology Center

Food Technology Center

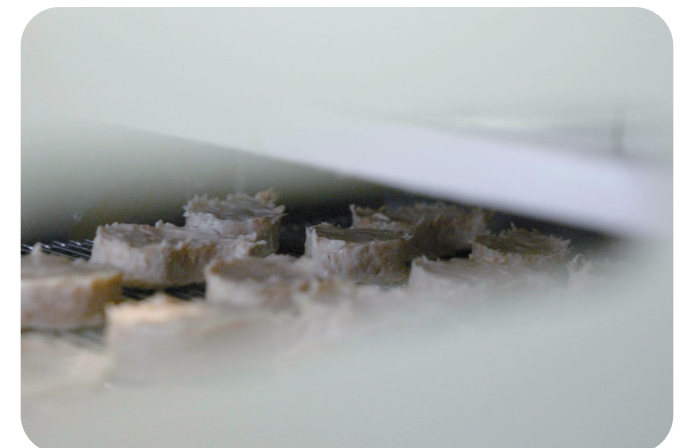

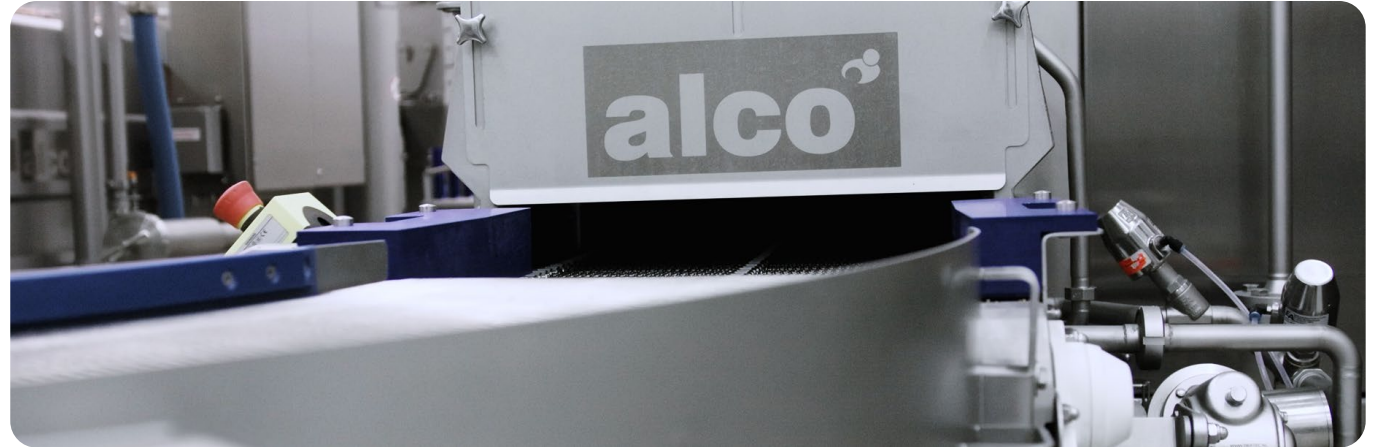

Accompanied by our experienced application engineers and product consultants, you can **test machines and production lines under realistic production conditions.**

After more than four decades of experience, we know that practical trials in process technology are still crucial for **flawless end products.**

If you do not yet have a concrete product in mind, we'd welcome the opportunity to invite you to make live contact with our machines – no strings attached!

Just try it out: On site, we can draw on **our entire product portfolio** and work with you to develop new products, simplified production processes or smart applications that can **best convert your ideas into reality.**

There is the right solution for every challenge – and we will find it together with you!

Chapter 05

Our references

A lot of quality food is produced using alco equipment

Each order is accompanied by very specific requirements.

Whether this is the specific performance of a machine, or the exceptional dimension of a complete unit:

We are **competent, reliable and quick to meet individual customer requirements**: The excellent quality and flexibility to be able to address client requests individually, make alco a **reliable partner for small and large businesses alike!**

**FORTIFY
THE FUTURE
OF FOOD**
