

FETCH! ANYTIME CLEANING RETRIEVER

The **Fetch! Anytime Cleaning Retriever** is an innovative solution that allows customers to access their dry cleaning 24 hours a day, 7 days a week, much like using an ATM. With its user-friendly interface, complete with intuitive text and voice prompts, customers can easily drop off or pick up their dry cleaning at any time, day or night.

For business owners, this revolutionary machine solves manpower challenges by automating everyday retail tasks, such as collecting unwashed garments, returning cleaned garments to customers, and handling payments. Operating non-stop around the clock, the **Fetch! Anytime Cleaning Retriever** ensures maximum efficiency and reduces labour costs.

FETCH!

ANYTIME CLEANING RETRIEVER

COMPETITIVE ADVANTAGES

Innovative Patent Technology

- Offers 24/7 accessibility, allowing customers to retrieve their cleaned clothes at any time, aligned with their schedules.

Flexible Space Configurations

- Customizable machine sizes to fit various shop spaces (minimum 9m²).
- Capable of handling large volumes, processing up to 2,000 orders per day.

Remote Control & Real-Time Monitoring

- Kiosk systems can be remotely managed via mobile devices.
- Sales data is easily trackable with an online monitoring system.
- Works with existing POS (Point of Sale) systems.

Secure Drop-Off and Pickup

- Safely manages the entire garment handling process, ensuring a smooth drop-off and pickup experience.

Efficient Power Use

- Operates with a single-phase AC power supply, requiring no gas or water connection.

Multiple Payment Options

- Supports popular cashless payments, including Credit Cards, Apple Pay, Google Pay, or third-party integrations.
- Customers can conveniently pay at the service counter, kiosk, or even from home.
