AUTOSORT
AUTOMATED SORTING SOLUTION

The **AutoSort** system is a cutting-edge automated solution designed to revolutionize the dry cleaning order assembly process. By significantly enhancing productivity and eliminating human sorting errors, **AutoSort** provides a substantial boost to the efficiency of dry cleaning operations.

AutoSort simplifies operations by eliminating the need for physically fit staff with strong memory skills, which are often required in manual processes. Instead, it delivers consistent, reliable performance, allowing businesses to optimize their workflow and expand their market potential.

COMPETITIVE ADVANTAGES

- **Increases Assembly Rate by 8 Times:** Boosts productivity significantly
- **Reduces Sorting Area to a Minimum of 5 sqm:** Optimizes space utilization
- **100% Accuracy:** Eliminates errors in the sorting and assembly process

Flexible Space Configurations
