WHY WORK WITH OASIS

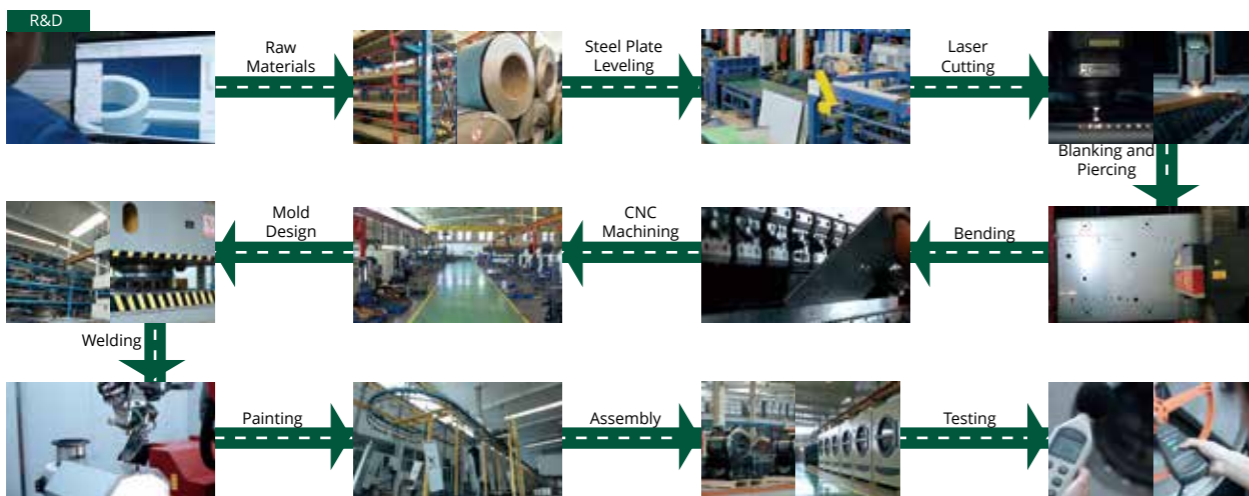

Vast Production Capacity

130 thousand square-meter factory ensures fulfillment of large demands and fast delivery.

Consistent Quality Control

All mechanical parts and accessories are made in-house with more than 100 sets of automated production equipment, such as laser cutting, bending machines, 1600t pressing machine, painting line, etc.

Flexible Customization

In-house mold design and manufacturing caters to your requirements.

Total Solutions Provider

We offer you industry know-how and real-time training, and you can see our equipment in operation in OASIS 1500m² central laundry factory.

World-Wide Coverage

Our products are running in 80+ countries.

Continuous Innovation

We keep offering cutting-edge technology and ergonomic design to help you save energy, increase efficiency, and maximize your throughput.

OASIS VENDED LAUNDRY SOLUTIONS

An Easy, Affordable Investment for High Returns.

HARDMOUNT WASHER EXTRACTOR

OASIS hardmount washer extractor is designed with a simple structure and fewer moving parts, resulting in low machine investment, fewer laundry breakdowns, and a longer lifespan. Our robust construction featuring an U-shape frame, unique 3D stereoscopic honeycomb-shaped washing drum, inverter drive, and touchscreen control ensure a reliable, durable, energy-saving, and user-friendly washer extractor. These features help make your laundry operations more efficient and profitable. Flexible payment options, including coin, card, mobile pay, and central payment.

Model	Capacity
SXT100G	10kg
SXT150G	15kg
SXT200G	20kg
SXT300G	30kg
SXT400G	40kg

Heating option:
Boiler fed, Electric

ADVANTAGE AND FEATURE

- Stainless steel drum and tub for anti-corrosion protection.
- Clad steel panels resist rust and fingerprints, maintaining a pristine appearance for your laundry. Optional stainless steel panels available.
- The uniquely designed 3D stereoscopic honeycomb-shaped inner drum with perforated lifters improves cleaning results, promotes faster draining, and reduces clothing damage.
- Permanently lubricated bearings require no maintenance.
- Reinforced construction minimizes vibration and noise.
- All casting parts are well processed and painted, ensuring machine longevity even in humid and harsh working environments.
- Mechanical and electronic double door locks, along with an emergency stop, provide maximum safety.
- Standard configuration includes 4 chemical compartments and 5 hoses for dosing pumps.
- Advanced inverter drive system ensures smooth start-up and energy savings, enabling longer machine life.
- Easy access to service parts from front and back panels simplifies maintenance.
- LED door light for visualization

CONTROL

- The full-color touchscreen control offers 6 vended programs, which are freely programmable and available in multiple languages to accommodate diverse customers worldwide. Features USB connection for program upload/download and software upgrades, along with networking capabilities for remote monitoring .
- Multi-pricing options create additional revenue opportunities. Flexible payment options, including coin, card, mobile pay, and central payment, cater to various business models.

SOFTMOUNT WASHER EXTRACTOR

OASIS softmount washer extractors feature advanced vibration-absorbing suspension system to enable high-speed extraction up to 400G, lower water retention and dramatically saving drying time and energy. They are designed for easy installation on various floors. The uniquely designed 3D stereoscopic honeycomb-shaped inner drum with perforated lifters, touchscreen control, and ergonomic structure create profitable and comfortable laundry environments. Flexible payment options, including coin, card, mobile pay, and central payment.

Model	Capacity
SXTP100F	10kg
SXTP150F	15kg
SXTP200F	20kg
SXTP250F	25kg

Heating option:
Boiler fed, Electric

ADVANTAGE AND FEATURE

- Stainless steel drum and tub for anti-corrosion protection.
- Clad steel panels resist rust and fingerprints, maintaining a pristine appearance for your laundry. Optional stainless steel panels available.
- The uniquely designed 3D stereoscopic honeycomb-shaped inner drum with perforated lifters improves cleaning results, promotes faster draining, and reduces clothing damage.
- Permanently lubricated bearings require no maintenance.
- Advanced suspension system, in conjunction with an intelligent electronic balancing system, efficiently absorbs vibrations, reduces out-of-balance occurrences, and enables extraction G force up to 400 for shorter drying times.
- 10kg washer utilizes direct drive motor, eliminating the need for belts, minimizing maintenance requirements and allowing for more precise control of motor speed.
- All casting parts are well processed and painted, ensuring machine longevity even in humid and harsh working environments.
- Standard configuration includes 4 chemical compartments and 5 hoses for dosing pumps.
- Mechanical and electronic double door locks, along with an emergency stop, provide maximum safety.
- Advanced inverter drive system ensures smooth start-up and energy savings, enabling longer machine life.
- Easy access to service parts from front and back panels simplifies maintenance.
- LED door light for visualization

CONTROL

- The full-color touchscreen control offers 6 vended programs, which are freely programmable and available in multiple languages to accommodate diverse customers worldwide. Features USB connection for program upload/download and software upgrades, along with networking capabilities for remote monitoring .
- Multi-pricing options create additional revenue opportunities. Flexible payment options, including coin, card, mobile pay, and central payment, cater to various business models.

TUMBLE DRYER

We are committed to designing the most efficient tumble dryers, recognizing their crucial role in your laundry operations. With features such as inverter motors, belt driving, drum insulation, and more, our machines are engineered to enhance energy efficiency while operating smoothly and quietly. Stacked tumble dryers occupy minimal floor space yet provide dual-pocket drying, optimizing your laundry space.

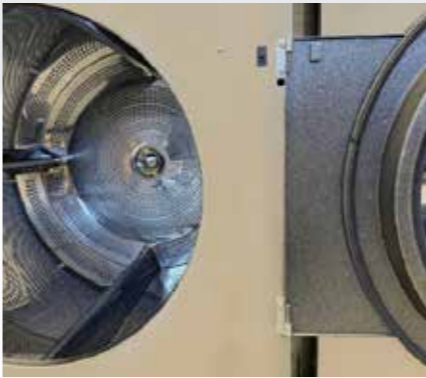

Model	Capacity
HG300	15kg
HG400	20kg
HG500	25kg
HG700	35kg

Model	Capacity
SCHG300	2x 15kg
SCHG400	2x 20kg

Heating option:
Electric, Gas

ADVANTAGE AND FEATURE

- Stainless steel cylinder anti-corrosion
- Clad steel front and side panels resist rust and fingerprints, ensuring a pristine appearance for your laundry
- Large door with 180° opening for easy loading and unloading.
- Heavy-duty door hinge ensures prolonged machine operation.
- Inverter drive motor for soft start/stop, reduced noise, and extended belt life.
- Inverter fan motor allows for adjustable airflow speeds.
- Standard reversing cylinder prevents linen tangling.
- Stacked tumble dryer design saves space.

STACKED DRYER

CONTROL

- The full-color touchscreen control offers 3 vended programs, which are freely programmable and available in multiple languages to accommodate diverse customers worldwide. Features USB connection for program upload/download and software upgrades, along with networking capabilities for remote monitoring .
- Multi-pricing options create additional revenue opportunities. Flexible payment options, including coin, card, mobile pay, and central payment, cater to various business models.

STACKED WASHER DRYER

ADVANTAGE AND FEATURE

- Stainless steel washing drum, tub and drying cylinder.
- Clad steel panels resist rust and fingerprints, maintaining a pristine appearance for your laundry.
- The uniquely designed 3D stereoscopic honeycomb-shaped washing drum with perforated lifters improves cleaning results, promotes faster draining, and reduces clothing damage.
- Advanced suspension system, in conjunction with an intelligent electronic balancing system, efficiently absorbs vibrations, reduces out-of-balance occurrences.
- 10kg washer utilizes direct drive motor, eliminating the need for belts, minimizing maintenance requirements and allowing for more precise control of motor speed.
- Front lint filter drawer makes clean lint easier.
- Standard configuration includes 4 chemical compartments and 5 hoses for dosing pumps.
- Advanced inverter drive system ensures smooth start-up and energy savings, enabling longer machine life
- Axial air inlet ensures superior drying efficiency.
- Mechanical and electronic double door locks, along with an emergency stop, provide maximum safety.
- Inverter fan motor allows for adjustable airflow speeds.
- Standard reversing cylinder prevents linen tangling.

CONTROL

- The full-color touchscreen control offers 6 washing programs and 3 drying programs, which are freely programmable and available in multiple languages to accommodate diverse customers worldwide. Features USB connection for program upload/download and software upgrades, along with networking capabilities for remote monitoring.
- Multi-pricing options create additional revenue opportunities. Flexible payment options, including coin, card, mobile pay, and central payment, cater to various business models.

Our softmount stacked washer dryer provides an ideal solution to save your laundry space by stacking the dryer on top of the washer, allowing for two functions in one unit of space. The softmount structure enables easy installation on floor. Flexible payment options, including coin, card, mobile pay, and central payment.

SXHG150F	15kg

Heating option:
Washing: boiler fed, electric
Drying: gas, electric

SINGLE-DRUM WASHER DRYER COMBO

ADVANTAGE AND FEATURE

- Combined softmount washer and dryer into one cylinder.
- 1-hour wash and dry cycle.
- Stainless steel drum.
- High 300 G-force extraction for optimal drying performance.
- Intuitive touchscreen control for ease of use.
- Clad steel panels resist rust and fingerprints, maintaining a pristine appearance for your laundry.
- The uniquely designed 3D stereoscopic honeycomb-shaped inner drum with perforated lifters improves cleaning results, promotes faster draining, and reduces clothing damage.
- Front lint filter drawer makes clean lint easier.
- Standard configuration includes 4 chemical compartments and 5 hoses for dosing pumps.
- Mechanical and electronic double door locks, along with an emergency stop, provide maximum safety.
- Advanced inverter drive system ensures smooth start-up and energy savings, enabling longer machine life.
- Easy access to service parts from front and back panels simplifies maintenance.

CONTROL

- The full-color touchscreen control offers 8 vended programs, which are freely programmable and available in multiple languages to accommodate diverse customers worldwide. Features USB connection for program upload/download and software upgrades, along with networking capabilities for remote monitoring.
- Flexible payment options, including coin, card, mobile pay, and central payment, cater to various business models.

OASIS washer dryer combo combines a softmount washer extractor with a tumble dryer into one cylinder, saving laundry space and providing a one-stop laundry solution for your customers. OASIS offers innovative features and technology to make vended laundry the best investment for returns.
