Essential Function

❖ Ethernet and wifi connection
❖ Built-in RFID reader
❖ Automated database
❖ Based on air ejection of garments
❖ Wide range of ID card readers
❖ Capacity for a standard laundry cart

WIDTH
1500mm

HEIGHT
1960mm

DEPTH
900mm

1500 x 1960 x 900mm (width x height x depth)

Technical Specifications

Model	LFH-S600
Electrical Power Supply	230V 50Hz
Nominal Consumption	900W
Standby Consumption	100W
Structure Protection	IP22
Weight empty	200Kg
Structure material	Steel plate and baked lacquered aluminum hood / Epoxy painting
Connectivity	Ethernet / Wifi
Display	15" touch
Garment identification	UHF RFID Technology
User identification	RFID technology (HF, UHF), barcode, fingerprint, etc.
Opening of pc door	63 cm
Trolley module opening	93 cm

Characteristics

❖ Antenna reading reliability of 99%.
❖ Total control of the garments.
❖ Workwear dispenser with and without bag.
❖ Average dispensing time between 10 and 12 secs.
❖ Easy loading - approx. 10 minutes.
❖ Manufactured in Spain.
❖ Fully customizable in size, capacity, color, logos, etc.
❖ Minimal maintenance.
❖ Self-test of failures and breakdowns.
❖ Direct technical service by the engineering developer of the machine.
❖ Remote connection to detect and solve errors.

Software

❖ Multilanguage
❖ Automated database with real-time access through a username and password from any device with internet connection.
❖ Mobile application that allows consultation of credits, history and availability of garments.
❖ Configuration of load, availability and listing alerts. listings.
