Essential Function

- ❖ Ethernet and wifi connection
- ❖ Built-in RFID reader
- ❖ Automated database
- ❖ Approximate capacity of 600 garments**
- ❖ Wide range of ID card readers
- ❖ Compatible with standard laundry cart.
- ❖ Personalization of entrance and exit doors

Technical Specifications

| | |
|-------------------------|--|
| Model | LFH-T600 |
| Electrical Power Supply | 230V 50Hz |
| Nominal Consumption | 900W |
| Standby Consumption | 100W |
| Structure Protection | IP22 |
| Weight empty | Steel plate and baked lacquered aluminum hood / Epoxy painting |
| Structure material | Ethernet / Wifi |
| Connectivity | 15" touch |
| Display | UHF RFID Technology |
| Garment identification | RFID technology (HF, UHF), barcode, fingerprint, etc. |
| User identification | 44 cm |

Characteristics

- ❖ Antenna reading reliability of 99%.
- ❖ Total control of the garments.
- ❖ Easy opening and introduction of the trolley.
- ❖ Own manufacture in Spain.
- ❖ Fully customizable in size, capacity, color, logos, etc, color, logos, etc.
- ❖ Minimum maintenance.
- ❖ Self-test of failures and breakdowns.
- ❖ Direct technical service by the engineering developer of the machine.
- ❖ Remote connection to detect and solve errors.

Software

- ❖ Multilanguage
- ❖ Automated database with real-time access through a username and password from any device with internet connection.
- ❖ Mobile application that allows consultation of credits, history and availability of garments.
- ❖ Configuration of load, availability and listing alerts. listings.
