

Flat-shaped heater lamps

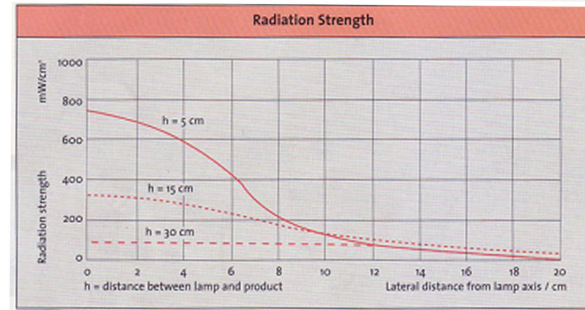

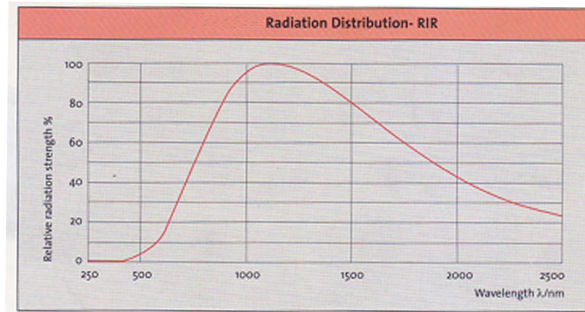

Instant heating and strong heat dissipation
Equipped with a metal protective net cover, bidirectional protection, making it difficult for animals to grasp and bite the lampshade, while avoiding heat damage to animals.
Resist the harsh environment of pig farms
The reflector material is mirror aluminum, and the power cord connector is made of 304 stainless steel material; The lamp holder is made of ceramic material, and the bracket and contacts are made of 304 stainless steel material; Design grounding for the metal part of the entire lamp; Corrosion grade C4, high temperature resistance, corrosion resistance
Waterproof, with a waterproof grade of no less than IPX5 for the entire lamp;
Plastic materials such as integrated cables and waterproof switches should have a flame retardant rating of V0 Standard R7S lamp holder for easy installation and strong conductivity.

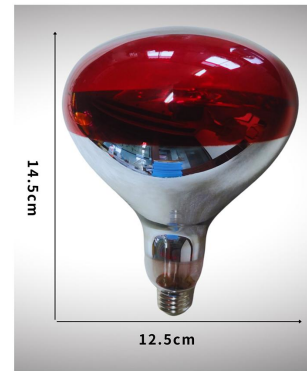

Application:

IR 125 Heater Bulb for Poultry/Livestock:

- Instant heating**
- Warm and comfortable**
- Strong heat dissipation**
- Waterproof and explosion-proof**

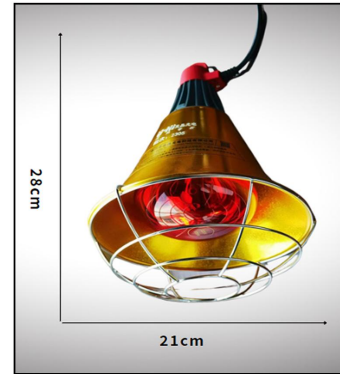

Through strict vibration and drop tests, the light bulb does not crack or explode
 The radiation is darker, suitable for use in the delivery room or for newborn small animals, effectively improving survival rates.

Product Details:

Specifications 175w/200w/250w/275W		Base: E27
Material: High borosilicate glass, with a silicon content of ≥ 80%, and high-quality double helix filament		
Service life: ≥ 8000hours		
Number: 40 pieces/box	Size: 50*25.5*54=0.06M ³	Weight: 13.6KG
Application: Exclusive for raising chicks in breeding farms		

ICone-shaped heater lamps:

Focusing on warmth and light
 High, medium, and low gear
 adjustment, customized as needed
 Waterproof and explosion-proof,
 with a waterproof grade not less than IPX5
 High temperature resistant, made of
 high-temperature and fire-resistant materials
 without deformation at high temperatures.
 The cable is resistant to
 high temperatures $\geq 600\text{ }^{\circ}\text{C}$

	<p>Stainless steel E27 base</p>		<p>The flame retardant grade of materials such as integrated cables, waterproof switches, and rubber caps should meet the V0 standard</p>
	<p>Thickened lampshade made of pure aluminum 1060</p>		
	<p>Stainless Steel Chain</p>		

Application:

IR Ruby Heating Lamps for Poultry/Livestock Special lamps for animal husbandry heating

Using ruby quartz glass tubes, with low glare, non irritating to the eyes for livestock, good sleep and fast growth. The groove is used to fix a single filament, and the filament is of a double helix structure, without sagging or loosening of the filament; Fast heating, high thermal efficiency luminous efficiency $\geq 1.2\text{lm/W}$. Energy saving sterilization environmentally friendly physical therapy.

The lamp tube has undergone strict high-pressure, explosion-proof, and drop tests, and there is no cracking or explosion phenomenon in the lamp tube.

Specific parameters

Specifications 175w/200w/250w/275w/300W/500W	Lamp base: R7S	
Material: Black red quartz glass tube, high-quality tungsten wire		
Number: 260 pieces/box	Size: $50*25.5*54=0.06\text{M}^3$	Weight: 3.8KG
Service life: ≥ 5500 hours		
Application: exclusive for raising chicks in breeding farms
