Micro
system

LIPAL LIGHTING

About

Lipal's latest 48V system, Micro, is still designed for speedy installation. Its ultrathin and ultranarrow three rails allow for surface installation, embedded installation, and suspension installation, and work with numerous lamps of varied purposes and aesthetics.

Micro is an excellent choice for applications requiring a more compact cutout, Also it could be used in storefront windows or integrated designs.

Micro also supports a variety of dimming options, like DALI, 0-10V, etc., to provide you with even more control over your lighting solution.
