

Multifunctional Camping Light—CC2-PRO

Product Introduction

This product is tailor-made for outdoor exploration and camping. Featuring dual lamp heads that support 180° horizontal adjustment and 90° vertical rotation, it offers versatile lighting modes, including 360° lighting, desktop illumination, and hand-held mode. When coupled with a portable tripod, it can easily achieve high-position lighting. The integrated phone holder interface fulfills the need for supplementary lighting during outdoor shooting. Furthermore, the CC2-PRO is equipped with RGB ambient lighting, adding a splash of color and romance to camping nights. Its large-capacity 10,000mAh battery guarantees extended illumination and doubles as a power bank for emergency charging of other devices.
