

FireSilx

FLAME RETARDANT FOLIAGE

THE ARTIFICIAL TREE & PLANT COLLECTION

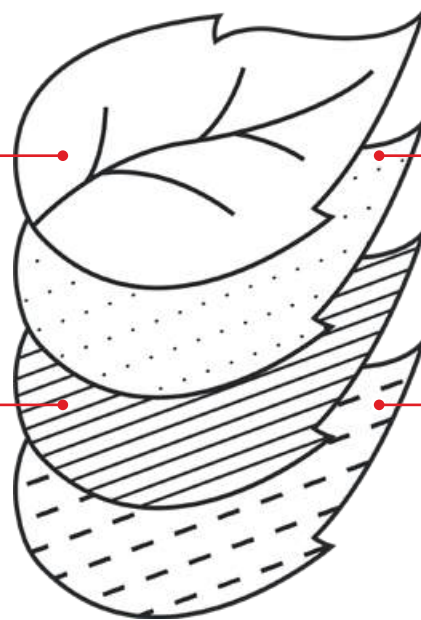

FireSilx inherently fire-retardant artificial foliage, is widely recognised for its life-like appearance and premium quality. Favoured by architects, landscapers, and designers globally, FireSilx is the preferred choice for those dedicated to creating spectacular spaces that are visually striking and prioritise the safety of guests, customers, and staff.

Manufactured from specialist high-grade, fire-resistant materials, each FireSilx product ensures fire retardancy at a molecular level. FireSilx foliage undergoes rigorous testing to meet and exceed global fire safety standards, including BS EN 13501 and DIN 4102-1, and comes with a lifetime guarantee. Certified fire-retardant certificates are provided with every order, reflecting our commitment to safety and top-quality service.

Engineered with advanced IFR additives, FireSilx foliage prevents fire spread, minimizes smoke and droplet formation, and self-extinguishes instantly.

FireSilx foliage is constructed using premium, virgin grade A materials infused with IFR additives, delivering exceptional performance and lasting durability.

The fusion of fire-resistant materials and additives creates a product that is inherently fire retardant, offering safety down to its core.

FireSilx not only meets but exceeds stringent standards like BS EN 13501 and DIN 4102, official FR certification and detailed lab reports with every order.

FireSilx foliage certification held

**BS 5867:Part 2 : BS EN 1021-1 & 2 : U.S. CFR Title 16 Part 1500 .44 : DIN 4102-1 : NF P 92-503: M1-M3
NFPA 701-2019 : ASTM E 84 : IMO FTP Code 2010 Part 7 : UL-94:2014 : BS EN 13501-1**

Green Wall Panel System

1m x 1m pre-assembled artificial green wall panels that are super easy to install in minutes. The panels are manufactured with realistic FireSilx FR & UVSilx colourfast foliage, perfect for both interior and exterior installs.

Technical Specification

Panel dimensions:

Height: 100 cm

Width: 100 cm

Depth: 20 cm

Coverage:

1 Panel = 1 sqm

Materials:

Grade A FireSilx & UVSilx polyethylene

Weight:

10.5kg per panel

Foliage Count:

110 replica foliage pieces per panel

Packing:

x2 panels per box

Packed Weight

23kg

Box dimensions:

Height: 106 cm

Width: 106 cm

Depth: 210 cm

FR Certificates: BS 5867:Part 2: Type B | U.S. CFR Title 16 Part 1500 .44 | UL-94:2014

UV Rating: ASTM G154-12a **Weathering Exposure:** ISO 4892-3:2006

 **UVSILX** Colourfast foliage

 **FireSilx** Flame retardant foliage

 Easy, quick and hassle free installation

 100% maintenance free

1

Pick Your Foliage

Choose from our extensive range of FireSilx FR Foliage. We have a varied selection of species, foliage colours and foliage styles to choose from.

2

Select Your Canopy

Tree canopies come in all shapes and sizes, and your bespoke tree is no exception. Any style from ceiling flat tops, to columnar pillars, we can manufacture it.

3

Tell Us Your Dimensions

We look for three key dimensions when designing your tree. Overall height, canopy width and ground to canopy clearance.
