

Christmas Land

Christmasland International Company Ltd.

ChristmasLand International Company Ltd.

Setting up in 2012...

ChristmasLand International Company Limited is a Hong Kong based company since 2012. Our company is a leading provider of top-quality lighting solutions to overseas professional users. We are committed to providing our customers with the best possible service, both before and after sales.

Our team is dedicated to understanding our customers' needs and putting ourselves in their shoes to provide the best possible solutions. We offer a comprehensive range of application-specific products that can help you reduce the costs of your lighting systems while improving the quality of light.

Our experts will support you in your lighting projects with advice matched to your needs, a tailored selection of products, and excellent service. We provide a full-service package for your projects, including lighting consultancy, product consultation and selection, and support services.

Our technical support will assist you at every stage of your project via telephone, and we come to your installation site and offer you on-site support with the project supervisor. We carry out use-oriented test setups with our products in our application lab. We provide you with all data sheets and in a comprehensive documentation. You receive a detailed overview of the products needed for your project in a precise volume planning.

Our industry expertise, decades of experience in applications, and longstanding customer relations make us a reliable partner for your lighting projects.

Please browse further our web site to see more product details. Some of the designs are innovative, edgy, creative and eye catching.

Christmasland International Company Ltd.

Transforming the Experience of Light

We have made dynamic light accessible in any environment with customizable, fully integrated lighting and control solutions. Our lighting solutions creates high quality white, pastels and saturated color from a single-point source or multi-source point enhancing the look of any spaces, and allowing you to tailor your light to meet your specifications.

We pride ourselves on providing superior customer service and have a strong reputation for offering full-service, turnkey solutions at competitive prices. Our technical expertise, product knowledge, understanding of the lighting industry, and ability to customize products are all qualities highly valued by our customers.
