**Koza Dereza Manufacture** was founded in 2009 in the small town of Ternopil in Ukraine. Our workshop gathered talented crafters under one roof. Based on Ukrainian history and world-known traditions, we design and produce unique items using only natural, eco-friendly materials.

**50+ collections** of textile, papier-mache, and wooden ornaments

Combination of traditions and modern vision - every piece is an artwork with its own history, meaning, authored techniques, and artistic hand-paintings. The vibrant and calm atmosphere of the holidays with unique hand-made shatterproof decorations.

**Koza Dereza decorations are collectible pieces that are valuable products for the customers of small shops, department stores, and retail stores worldwide.**
